Health & Safety Policy

It is the policy of Global Furniture Group (Global) to provide and maintain a safe and healthy workplace. The protection of workers from injury or occupational illness is and continues to be our number one objective.

All levels of Management are committed to the prevention of occupational illness and injury, and accept their responsibility to strive for continual improvement in the elimination of hazards and reduction of occupational health and safety risks.

Supervisors are held accountable for the health and safety of workers under their supervision. Supervisors are subject to various duties in the workplace, including the duty to ensure any machinery / equipment, protective device or clothing required is used or worn by workers. In addition, that workers comply with established safe work practices and procedures.

Every worker must protect his or her own health and safety by working in compliance with the law, safe work practices and procedures as well as reporting all unsafe situations and conditions immediately.

Workers will receive information, training, and competent supervision in their specific work tasks to protect their health and safety and the health and safety of other workers. Our goal at Global is to ensure that all employees continually increase safety awareness for all activities.

Global is committed to working with its employees by promoting a safe and healthy work environment.

Joel Feldberg
President and Chief Executive Officer
