Quality Policy

Global Furniture Group is a privately-owned company that is recognized as a leading manufacturer of workplace, education, and healthcare furniture. We take great pride in delivering products of exceptional quality, meticulously designed, and manufactured to not only meet but exceed customer requirements and industry benchmarks.

Our quality initiatives and rigorous testing are an essential part of our philosophy along with a commitment to the following guiding principles:

- To continuously strive to provide our customers with products and services that exceed their expectations of performance, safety, and longevity;
- To achieve continual improvement of the safety & reliability of our products by meeting or exceeding applicable requirements;
- To adhere to all pertinent regulations and compliance obligations;
- To educate and foster communication among employees, customers, visitors, and other interested parties;
- To Incorporate risk-based thinking into our operations, processes, and quality objectives;
- To seek improvement of the Quality Management System and quality objectives, supporting alignment with company strategic direction

Global aims to embed these principles into our day-to-day operations and long-term strategic outlook.

Joel Feldberg
President and Chief Executive Officer
