

ERGONOMIC
halo arm

Introducing Halo, a next generation ergonomic arm

Halo™ has been designed and engineered to support diverse work habits, unconventional postures and a wide range of body types. Its key innovation is the dual independent 360° rotation feature, allowing the arm to be adjusted quickly and intuitively to virtually any position.

Vion shown with LUUM Crossgrain, Iroko seat and Dimension mesh, Sand back.

Designed for how you sit

Halo is a premium option for task chairs in workplace and home office environments. The integrated design and fluid form support cleaning protocols for healthcare applications. Halo is a North American exclusive and is only available from Global, backed by Global's Limited Lifetime Warranty.

Vion shown with LUUM Crossgrain, Iroko seat and Dimension mesh, Sand back.

halo ergonomic arm

Ergonomist approved

The Halo arm is ergonomist approved* and exceeds the expectations set by CSA Z412:24, CSA Z1004:24 and BIFMA X10.1-2024. With adjustability ranges that accommodate from the 5th percentile female to the 95th percentile male dimensions (as referenced in these standards), each adjustability feature of the Halo arm can fit 90% or more of the working population.

* Report by Taylor'd Ergonomics.

Find your position

Full range of adjustment including armcap, upper arm swivel, and arm width

Upper arm rotates 360°

Armcap slides 1.2" forward and backward

Adjustment range including armcap and arm swivel

Arm width features 2" of travel

The images above highlight the wide range of positions the Halo arm can achieve, offering support for a variety of seating postures. Adjustments are intuitive and effortless, with one button controlling the overall arm height and a second enabling 360° dual independent rotation of the upper arm.
