

create

Create. It's something we all do in our minds. Imagine your vision brought to life to complete that special interior space. That's where our custom capabilities team of engineers and makers come in.

As a trusted partner in everyday solutions, our manufacturing expertise is top notch. Combine that with your creative vision and you'll end up with truly unique projects that exceed client expectations.

From simple accents, to elaborate and detailed statement pieces, designing your signature project easily becomes a reality. If you can dream it, we can custom craft it.

Let's create together.

Make your first impression a standout with a mix of fine finishes complementing a strong, minimalist design.

collaboration

media collaboration

Collaboration can occur anywhere from the boardroom to the media center, or the café to the hub lounge. Whether in-person or virtual, each space can be comfortable and inviting with warm wood tones and timeless hard surfaces.

# tables

# storage

Design tables + storage pieces to fit your space. They allows the space to function the way it was intended, no matter how large or small.

Drawers. Shelves. Doors. Design your storage solution to suit your storage needs.

# storage

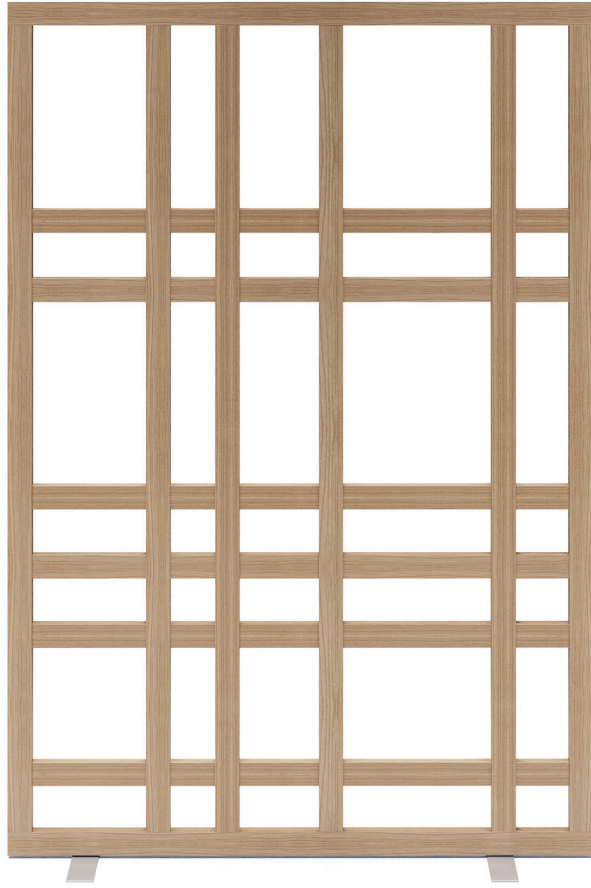

# storage

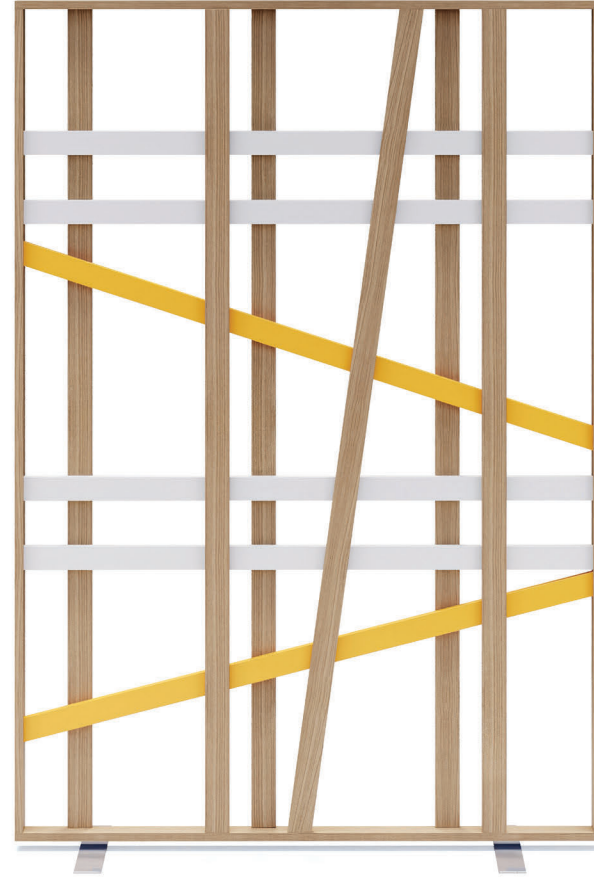

Bookcases can be more than bland shelving. Create unique statement pieces by mixing it up ... from asymmetrical sizing to blended materials. And for a bit of visual appeal, throw a pop of color into your design.

## divide + screen

## divide + screen

Room and space dividers can be artistic or classic. Whether fixed, stationery or mobile, design with unique dimensions, materials and color for a purposeful addition to your interior space.

it's in the details

We are proud to produce the finest custom wood solutions, tailor made to your exact specifications. Our standard veneers and hardwood solids are hand-selected from sustainable, managed forests to ensure the highest quality and greatest consistency. Choose from a broad spectrum of wood species to reflect your project's unique design. Select the wood species, the type of veneer cut and the lay-up pattern. Our skilled artisans will perfectly match and sequence the veneer to create a beautiful result every time.

For the ultimate in beauty and protection, all products are finished in a state-of-the-art Catalyzed Conversion Varnish which allows for the best combination of durability and flexibility. Each piece is individually assembled, sanded, stained and finished, ensuring uniform color and finish application.

Create with enthusiasm knowing your designs will be brought to life by our team of custom crafts people.
