

A modern office interior featuring a large wooden desk and a curved wooden cabinet. The desk is made of wood veneer and has a laptop and a cup of coffee on it. The cabinet is also made of wood veneer and has white drawers. A wooden chair with a curved back and metal legs is in the foreground. A large window in the background shows a city skyline.

CUSTOM CAPABILITIES wood veneer

Beautifully crafted. Timeless designs.

We believe in making a great first impression. We make office furniture that inspires. Our wood collections are created with the finest craftsmanship and regard for quality. Exacting attention to detail and exquisite hand-matched veneers and solids offer the richness of wood in distinctive designs.

Wood furniture as distinctive as you.

Personalized and custom options offer unlimited flexibility in planning your space. Our passion is to provide imaginative solutions that continually integrate technology and furniture in new and inventive ways. Let us create your vision – big or small.

Let us bring your vision to life.

From conference rooms to executive offices, your wood furniture can be tailored to function the way you do. Sophisticated components and wire management can accommodate today's technologies.

Our standard veneers and hardwood solids are hand-selected from sustainable, managed forests and are chosen to ensure the highest quality and greatest consistency. Choose from a broad spectrum of wood species to reflect your organization's character and design.

Create spaces that welcome and inspire.

Global offers the ultimate in beauty and protection. We finish all products in a state-of-the-art Catalyzed Conversion Varnish which allows for the best combination of durability and flexibility.

Each piece is individually assembled, sanded, stained and finished, ensuring uniform color and finish application.

We'll make it your way. Select the wood species, the type of veneer cut and the lay-up pattern. Our skilled artisans will perfectly match and sequence the veneer to create a beautiful result every time.

Every piece is made using the finest materials. Exact precision and hand-crafted details provide a lasting quality that is simply beautiful.

Old world craftsmanship is integrated with modern technologies and manufacturing processes. Precision and flexibility allows for lead times unsurpassed in the industry.

Our facilities are qualified under the ISO 14001 Environmental Management System — a significant step in ensuring environmental accountability and continuous improvement.

A sustainable choice.

We see the picture. It means a commitment to integrating our efforts to sustain the earth, air and water into our entire corporate culture.

GREENGUARD GOLD

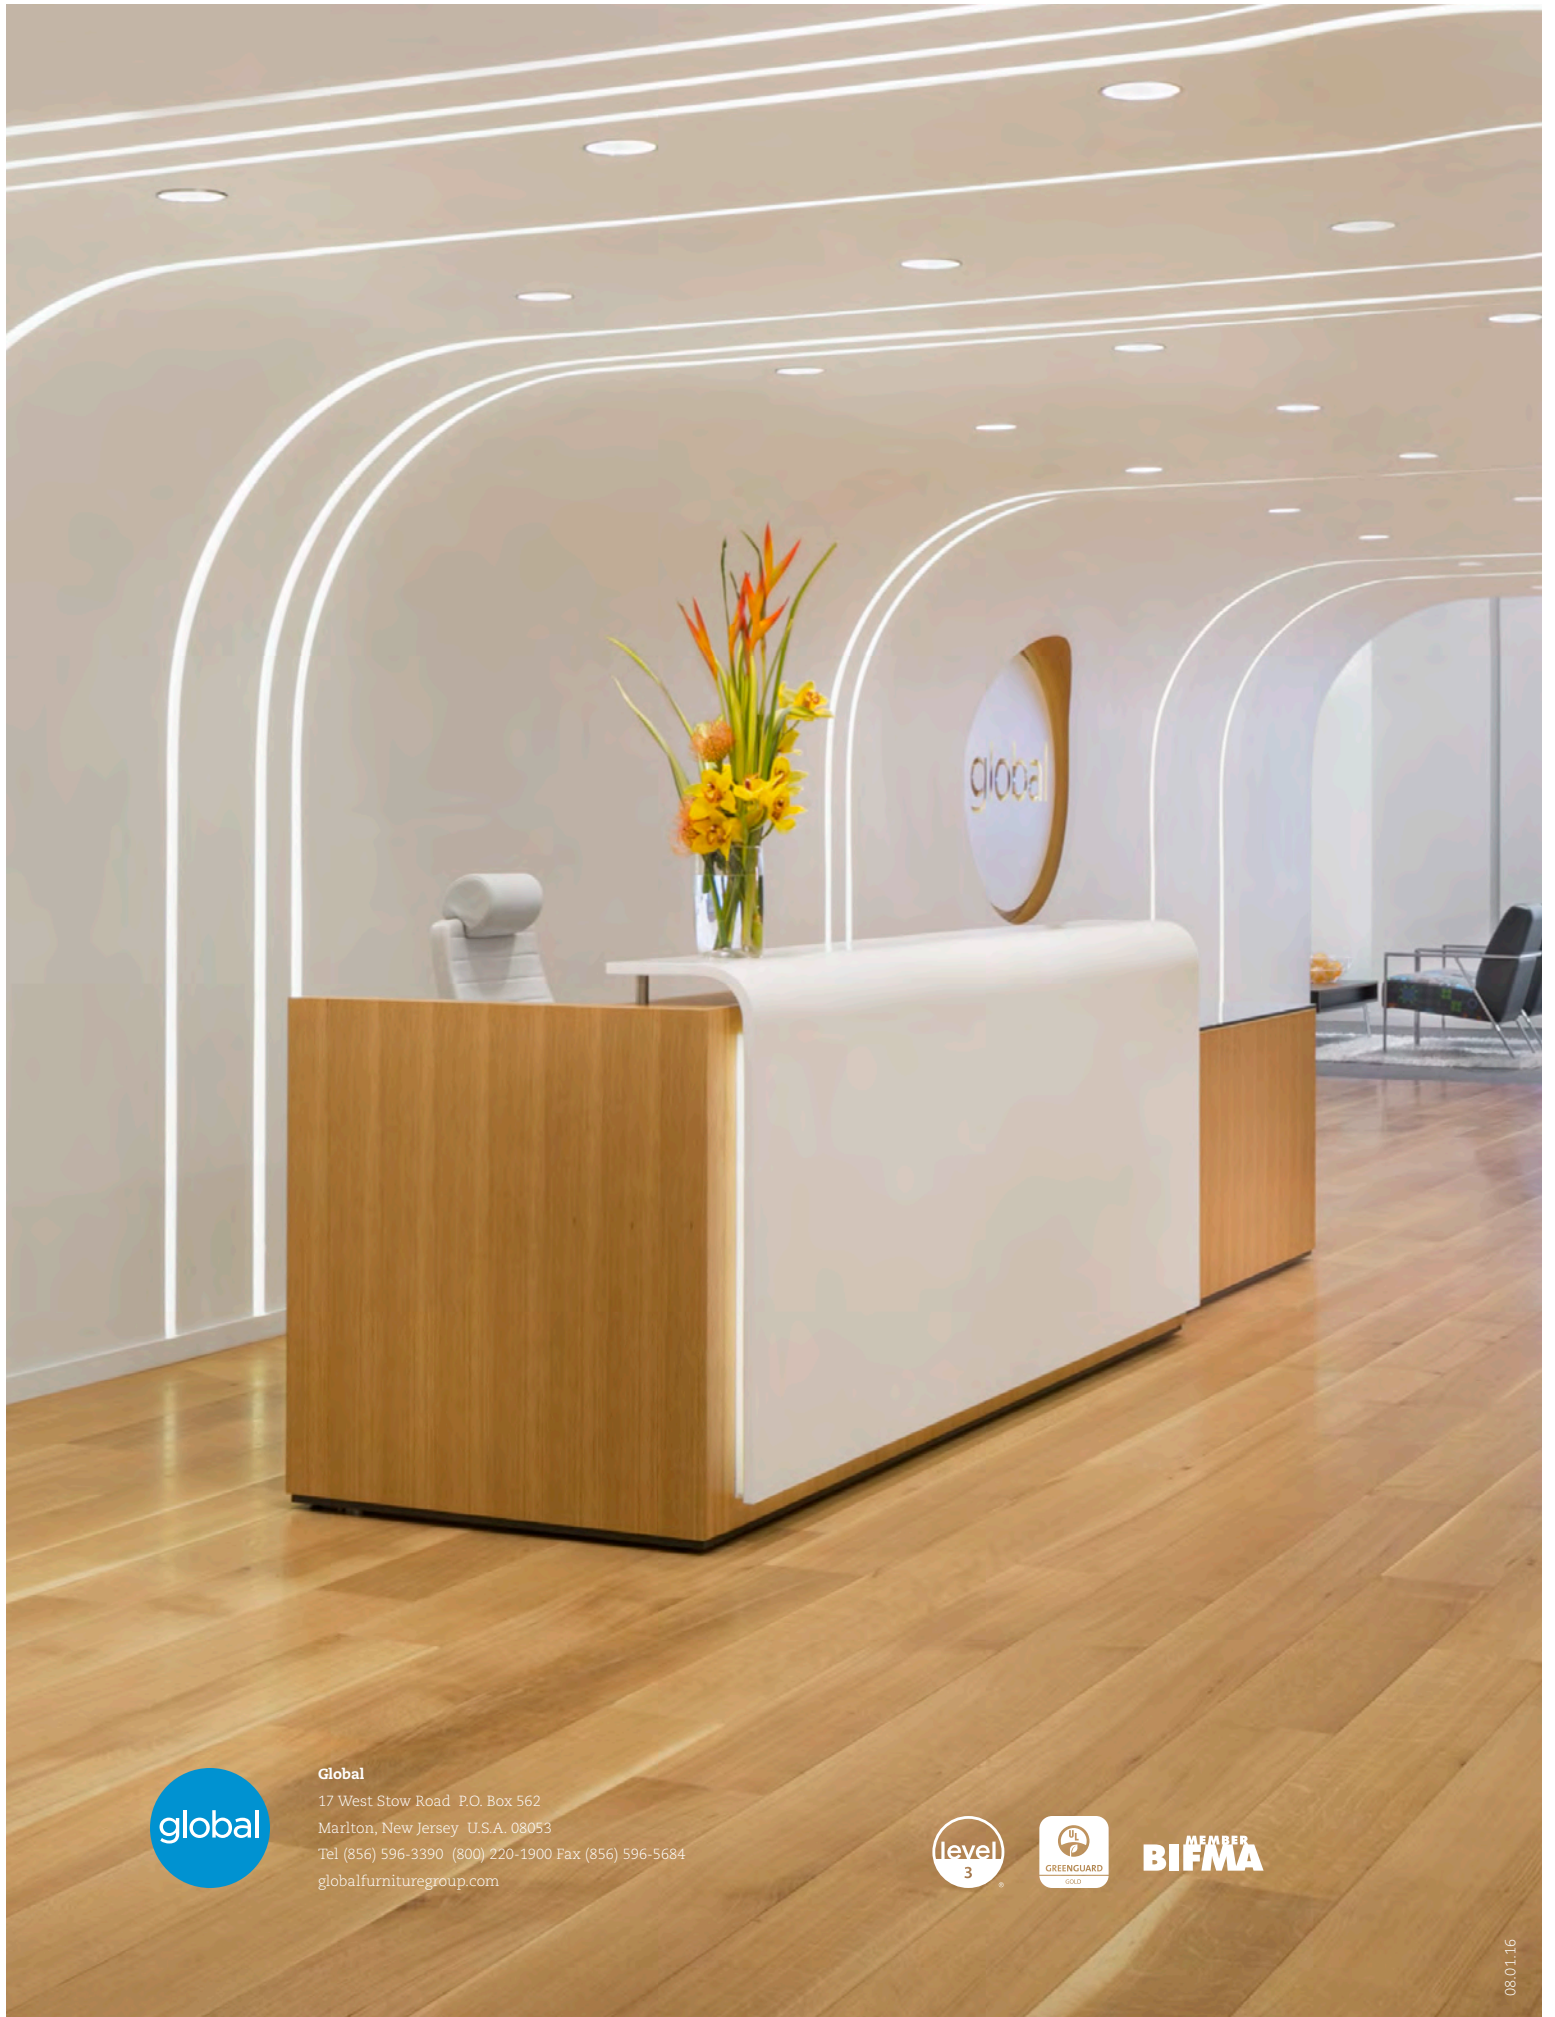

Using stringent testing methods, GREENGUARD certification ensures our products are low emitting and contribute minimal levels of pollutants to the indoor environment.

LEVEL 3

Level is a sustainability program that evaluates the environmental and social impacts of our products in the built environment. We are proud of attaining level 2 certification for all of our products.

FSC

All wood products come from FSC certified forests and other responsible sources through a chain of custody (COC). This further demonstrates our commitment to sustainability and the responsible management of this valuable natural resource.
