global

Your trusted partner

supporting health, wellness + inclusivity

At Global, we leverage our manufacturing strength, market insight and personal commitment to bring lasting furniture solutions to the spaces where people work, learn and heal. Working with us will enable you to leverage the following benefits:

1. made in Canada
2. purpose-built
3. sustainable
4. robust product offering
5. proven track record

“In this environment, things are always changing. Global constantly educates itself and responds to these changing environments fluidly and proactively.”

Janice Mount, Contract Specialist, St. Joseph's Health System

why work with Global?

Canadians supporting Canadians

Our products are made for Canadians, by Canadians. We are Canadian owned with more than 40 just-in-time manufacturing and product assembly plants. This enables us to respond quickly and allows us to customize and deliver high quality products that are affordable and sustainable. From our centralized facilities in Toronto, Ontario we are able to deliver personalized attention, including direct access to the people who design, engineer and manufacture your products.

Purpose-built

We take the time to understand the unique human-to-human interactions that shape and affect the way healthcare furniture needs to be designed and deployed. Our collaborative approach allows us to respond not only to the needs of patients but caregivers as well.

Sustainable

Close proximity to our manufacturing and affiliate supply companies allows us to generate fewer emissions through reduced logistics and transportation. In addition, Global's in-house recycling facility, RT Technologies, reuses waste products from the manufacturing process and successfully diverts wood, plastic, paper and rubber tire waste from landfills every year.

Extensive product range

Global's product range supports three vertical markets: workplace, education and healthcare. Our vast product range allows for 'one stop' solutions from a single source. This is of enormous value to our customers as it ensures integrated finishes, shared componentry and superior performance standards. In addition to our streamlined process and time + cost savings benefits, with Global you can rest assured that you are working with true furniture experts.

Proven track record

We value our clients and strive to build lifelong partnerships through, trust, respect and successful outcomes. Global's commitment to quality is supported by our in-house certified test facility. Since 1985, Global has provided solutions and support to: hospitals, medical practice centers, senior care organizations, public housing, treatment programs and veterinary clinics. We are proud to provide our customers with lasting solutions that provide peace of mind.

1. made in Canada

Proudly Canadian

Global Furniture Group is proudly Canadian, headquartered in Toronto, Ontario. Our manufacturing is primarily in the GTA, ensuring efficient transportation and deliveries without cross-border delays. We have more than 40 showrooms and distribution centers across North America. As a Canadian company, all of our pricing is in Canadian dollars, eliminating any risk due to currency fluctuations, tariffs or duties. Owning our manufacturing locally not only allows us to pull from a local and talented labor pool, but it also affords direct control and oversight to:

- maximize efficiency and speed to market
- directly control cost and quality
- mandate to keep harmful chemicals out of our products

Convenient

With extensive resources across the country, opportunities for showroom visits, training, education and ergonomics sessions are convenient and accessible.

Sharing resources

You'll have the chance to work with our valuable and knowledgeable team of experts for product selection, specification, renderings, customer service and more!

Why work with Global?

2. purpose-built

Collaborative

Our suite of purpose-built products has been developed in collaboration with you to respond to the specific needs of the people who will heal, work, diagnose, rest, maintain and clean them. We continue to educate ourselves on the evolving needs of our customers to ensure the furniture solutions we create deliver meaningful and sustainable support + comfort to the people who use them.

Manufacturing strength

As Canada's largest contract furniture manufacturer, we leverage our manufacturing strength to incorporate the same quality and durability standards found in contract manufacturing into our healthcare product offering. To ensure our products meet the challenging needs of 24/7, high traffic, public and private spaces, we invested in our own ISO17025 accredited in-house

testing facility certified by the Standard Council of Canada (SCC). All of our products are tested to ensure they meet and often exceed industry recognized quality and safety standards such as ANSI/BIFMA and CGSB, resulting in exceptional product quality and performance. Global stands behind its products and service commitments.

11,800,000 lbs.

Plastic and wood upcycled yearly

3. sustainability

Our roots

Even as Global has grown into Canada's largest manufacturer of furniture for workplace, education and healthcare, the company remains connected to caring for their employees, customers and for the planet. Manufacturing our products and owning most of our supply chain means we generate fewer emissions through reduced logistics and transportation needs between manufacturing facilities and our local customers.

Global has led the industry through our creative recycling efforts, the development of unique technologies for upcycling our own waste, and by continuously raising our standards for our supply chain and manufacturing facilities. In 1993, we established our own recycling facility (RT Technologies), which employs a propriety technology to combine wood and plastic waste from its own and other facilities into a new composite material.

7.5 tons per day = 3,500 tons per year

The amount of plastic and wood waste that RT Technologies diverts from the landfill

4. extensive product range

Canada's top choice

Global manufactures an extensive and comprehensive range of products for all sorts of applications to meet the rigors of healthcare environments. Our leadership and experience for developing thoughtful, functional, solutions-based furniture has made Global Canada's top choice with healthcare buyers. We can fulfill product requirements for clinical and non-clinical spaces:

Healthcare furniture:

- patient room seating
- dining room seating
- waiting room seating
- sleeper solutions
- patient recliner chairs
- bariatric seating
- lounge seating/solutions
- clinical/feeding stools
- lab stools
- activity/dining room tables
- occasional tables
- overbed tables
- room furniture
- behavioral health
 - in patient seating
 - waiting room seating

Office furniture:

- office task chairs
- 24 hour task chairs
- guest/side chairs
- boardroom seating and tables
- meeting room seating and tables
- conference/meeting room tables
- freestanding desking solutions
- height adjustable tables
- pedestals
- metal filing and storage
- wellness solutions
- dividers
- keyboarding solutions
 - keyboard arms and platforms
 - monitor arms
 - wire management

“Together we’ve changed the industry by raising the bar and developing a purpose-built furniture line that is now available to the entire industry.”

Jay Ayres, Purchasing Director, St. Joseph’s Health System

Why work with Global?

5. proven track record

The installations below demonstrate the diversity of Global's product solutions and our commitment to end users and specifiers at all stages of the planning and implementation process. To see more projects please visit: globalfurnituregroup.com/ca/healthcare/resources/projects

Cambridge Memorial Hospital (CMH)

Global, along with our dealer partner Staples Business Advantage, were trusted partners in the completion of CMH's new 240,000 square foot patient care wing that is home to the emergency department, intensive care, maternity services and mental health programs.

Dartmouth General Hospital (DGH)

A 24-hour emergency, inpatient medical, surgical and critical care facility that serves approximately 120,000 people. Global has been a part of DGH's multi-year extensive redevelopment project that resulted in space for 48 beds plus eight new operating rooms and extensive upgrades to outpatient and diagnostic imaging areas.

Cortellucci Vaughan Hospital (CVH)

CVH is a \$1.7 billion project on a 25-hectare property which will offer over 9,000 Global pieces of furniture in surgical services and operating rooms, diagnostic imaging, ambulatory clinic, intensive care and acute care patient rooms.

Saskatchewan Hospital North Battleford

With 284 beds in total, including a 96-bed secure unit for offenders with mental health needs, Global has outfitted the facility with product that made an immediate positive impact on the morale of not only the staff but the patients as well, providing a "home-like" rather than institutional atmosphere.

your trusted partner

Since 1985, Global has been a primary source for purpose-built healthcare products and services that support wellness and raise the bar for quality, long-term value and durability for medical clinics, acute care and long-term care facilities.

You may wonder what sets us apart from other healthcare furniture manufacturers... the answer is: we care. We are listening to what people in the healthcare industry have to say and we are responding to their needs.
