

global furniture group healthcare

global

a trusted partner

At Global we leverage our manufacturing strength, market insight and personal commitment to bring lasting furniture solutions to the spaces where people work, learn and heal.

The Global difference

Looks and Performance

All of our products are designed to make cleaning and disinfecting in a COVID world easy, without sacrificing aesthetics or user comfort.

Collaborative Development

Our suite of products has been developed in collaboration with you. Prototyping and testing our furniture in the field ensures each piece we bring to market responds to your evolving needs.

Made for Canadians by Canadians

We own our manufacturing facilities and localized supply chain, allowing us to set the standard for customization, quality, durability and value.

Long-term Relationships

We have built our company one relationship at a time. You can rely on our commitment to go the extra mile at every point with you.

acute care

We take the time to understand the unique human-to-human interactions that shape and affect the way healthcare furniture needs to be designed and deployed. Our suite of purpose-built products was developed to respond to the specific needs of the people who work, heal and engage with the space.

purpose built

Furniture that is designed with the user and application in mind.

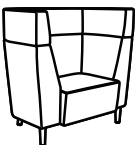

comfort

Comfortable, restful, welcoming and easy to navigate environment.

infection control

Furniture that supports housekeeping, infection prevention and control.

privacy

Furniture and solutions that are purposeful, pleasant and facilitate privacy.

“It’s about having an environment that supports a warm and inviting culture that fosters trust and comfort for staff, volunteers, students, clients, patients and their families and caregivers.”

- Jason E. Walker
EllisDon Corporation

senior care

Successful senior living spaces need to deliver an experience that feels like home, while safeguarding against injury and outbreaks, both seasonal and pandemic. Furniture within these settings can help shape a built environment that provides the safe delivery of clinical services while supporting resident comfort, independence, dignity and respect.

caring spaces

Spaces that are comfortable and feel like home.

safety

Furniture that promotes mobility and independence.

caregiver friendly

Furniture that makes it easier to provide care.

functional

Durable furniture backed by Global's Lifetime Warranty.

“The objective was to balance comfort, aesthetics and a sense of community with health and safety, as well as nurse-resident integration.”

- St. Joseph's Care Group

global

clinical care

We make what you need. Our solutions are suitable for hightraffic, challenging public and private spaces. The product development process focuses on ensuring the product is suitable for use and can meet the many faceted challenges of today's public shared spaces.

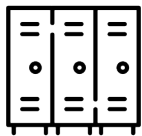

welcoming and calming

Spaces that are welcoming and create a sense of calmness.

functional

Products are designed to function, perform and last.

organized

Space planning that provides storage and flexibility to accommodate multiple users.

inclusive

Furniture solutions that accommodate the vast number of users and their unique needs.

“Furniture, above almost anything else, conveys a strong message about how the space should be used and what expectations one should have as an occupant. You'll know you got it right when you can see that people actually want to spend time there - or don't mind the wait!”

- Bart DeVries
