

EVOLVE  
structures

# Make room for change

Introducing Evolve® Acoustic Grid, a great addition to the top of any combination of Evolve panels to create semi-private hubs or workshops. With a wide variety of configurations available, create your desired space with a nearly endless array of planning options.

---

## An unobstructed view

- Evolve Acoustic Grid is constructed of acoustical PET felt with slats running 6" apart to allow for access to lighting, air flow and fire suppression from the ceiling
- Panel heights can vary to accommodate a wide variety of ceiling heights, starting as low as 84" in height with the ability to stack over 16' high
- Single Evolve Structures can range from 4' x 5' up to 10' x 12' and could have multiple structures added to larger rooms with additional support beams at the top of the panels
- PET felt components are available in all Global PET felt colors
- More than one color can be specified on the outer skirt and/or inner structure of each Evolve Structures unit

Additional information can be found on the Global [website](#).

# A space within a space
