

OFFICE spaces

It's time for a change

Office Spaces™ is a unique desking architecture addressing current and future private office trends. Modular in design, Office Spaces is self-supporting for easy reconfiguration or relocation. A progressive palette of finishes and materials supports the light look of this contemporary desking line.

Office Spaces shown with Nevada legs, surfaces in Custom Grey and storage fronts in Sheer Beauty. PET Felt backboard and modesty panel shown in Mist. Drift seating shown.

Purpose built for height adjustability

Office Spaces was designed from the ground up to incorporate height adjustable surfaces in both rectangular and L-shaped configurations. With a continuous height range from 26" to 52.5" (measured from the floor to the top of the worksurface), users of all heights are accommodated—sitting or standing. A fingertip control at the desktop repositions the surface height quickly and quietly.

Supporting engagement and collaboration

Office Spaces offers new solutions for meeting rooms and guest offices that facilitate engagement and support collaboration. The seamless integration of work carts and trolleys from Collaborative Spaces™ extend the possibilities and applications with matching details, materials and finishes.

Break it down your way

Old school or new school, everyone has a different way of working through the challenges of the day. Backboards support media displays and include options for whiteboards, tackable PET Felt or laminate surfaces, with or without shelves. Height adjustable and fixed height legs (shown) share the same design to provide a consistent visual across all applications.

Additional information can be found on the Global [website](#).

Making the most of any space

Office Spaces adds multiple features and functionality in a very small footprint, while still retaining a sense of place to call home—even if it is only for a day or two. PET Felt privacy and modesty panels (shown) and tackable backboards soften the overall look and feel. Available with fixed height or height adjustable worksurfaces.

Feature rich at any size

Primary and return worksurfaces feature square and large radius corners (shown) for improved ergonomics. Storage elements are available in a variety of sizes and configurations including wardrobes, file drawers, box drawers and cubbies for personal items, with or without locks. A whiteboard on the face of the wardrobe is optional.
