global

Sonoma™ wardrobes transform small rooms into comfortable, airy living spaces. Designed to meet the personal storage needs of residents in care, a range of Sonoma wardrobes are available for convenient hanging, or folded drawer storage. Design details, including interior door hooks, optional anti-tip security kit, drainage and ventilation openings, make everyday easier for residents.

These wardrobes feature a modular design that aligns with Sonoma dressers and bedside cabinets to maximize available space. Sonoma is elevated off the floor to simplify housekeeping and support infection control practices.

Additional information can be found on the Global [website](#).

Attention to detail

Two door wardrobe cabinet with full height hanging storage and large adjustable shelf storage.

Features

Cabinet doors are fitted with commercial quality hinges that provide 170° or full opening

All wardrobes feature a J-style safety clothing rail for added safety and peace of mind

Locks are available for top drawer (key alike and master key options are available)

Bottom drawer interiors are vinyl wrapped and stain and moisture resistant

Wardrobe cabinets offer additional hanging storage with a safety garment hook

An anti-tip security kit is available and is recommended for added safety

Easy, everyday storage

Three door wardrobe cabinet with full height hanging storage, adjustable shelf storage and three drawers with optional lock on the top drawer.

Two door wardrobe cabinet with full height and half height hanging storage and fixed shelf storage. Additional adjustable shelf is optional.

A closer look

Tops

High pressure laminate tops feature a coordinating 3mm polymer edge, providing an easy to clean, durable and stain resistant surface.

Accessories (Optional)

A variety of accessories, including safety mirrors, garment hooks and external hanging accessories, are available to personalize wardrobes and provide additional utility.

Shelves

Wardrobes are fitted with a combination of fixed and adjustable shelves to provide flexibility and superior structural integrity.

Legs

Legs are constructed of heavy duty aluminum extrusions and provide superior structural integrity due to the continuous attachment along the full length of the cabinet's frame. Legs are available in coordinating finishes. Custom colors are available for larger projects.

Drainage

A drainage reveal is provided at the front of the wardrobe base so that mishaps are quickly evident to housekeeping staff. The reveal is fitted with a polymer liner for durability and easy cleaning. The drainage reveal works with the upper ventilation openings to promote proper airflow in the wardrobe.

Ventilation

Ventilation openings are provided at the top of both side gables to promote airflow. All ventilation openings are fitted with a polymer liner for durability and cleaning. Ventilation openings also provide the slot for hanging accessories.

Doors

Each door is fitted with three commercial quality hinges that are fully adjustable and provide 170° of opening.

Handles

Seven handle options are available. All handle options deliver minimal interference, gentle contours and generous hand clearance to accommodate people with reduced vision or limited mobility. Custom handle options are available for larger projects.

Chassis

Chassis panels are fully captured along the entire length of the aluminum leg framework, providing superior strength and structural integrity.

Glides

Glides on all four legs are height adjustable to ensure that the top surface can be leveled or slightly angled back towards the rear fascia to reduce the likelihood of small objects rolling off the top and out of reach.
