

concorde

Presidential performance

High back synchro-tilter deluxe presidential

High back synchro-tilter executive 24HR

Concorde provides unique push-button control from the arm of the chair. With the click of a button the seat floats free; press again and it locks firmly in the desired seating position. The presidential model is the ultimate executive chair, with a supportive and enhanced wider seat, a tall back and contrasting stitching.

Many workplaces operate around the clock and this is where the 24HR model thrives. It accommodates multiple users and has a weight capacity supporting up to 350 lbs. Most importantly, it was built to exceed ANSI/BIFMA standards and is backed by Global's Limited Lifetime Warranty.

Additional information can be found on the Global [website](#).
