healthcare

Comfort and durability

Metal armchair with two rear swivel casters and lift mechanism, metal armchair with two rear swivel casters and Enable table with E-Z lift dual arm tablet.

Desmond™ HT brings warm residential design to today's healthcare environments. Inspired by our best-selling Desmond wood framed chair, the Desmond HT metal frame offers maximum strength in long-term and acute care applications. The seating series features clean lines and a picture frame back that transitions nicely into dining rooms, lobbies, lounges, waiting rooms and patient rooms.

The Desmond HT armchair is available with rear swivel casters and a lift mechanism to provide better assistance to the seated individual. Two unique models are available within Desmond HT to provide better assistance to both the seated individual and the caregiver. Models with rear swivel casters allow the chair to be moved easily in tight spaces and can be tipped back for repositioning. Lift mechanism models help caregivers gently reposition seated individuals with reduced risk of injury.

It's in the details

Metal armchair

Lift mechanism

Urethane armcaps with egress grip

Rear swivel casters allow the chair to be tipped and easily moved

Finishes

Metal frame available in all Globalcare finishes

Desmond HT is designed with comfort and safety in mind. Urethane armcaps feature forward extended grips that make getting in and out of the chair easy. For lasting performance and infection control, Desmond HT seat cushions are standard with high density Ultracell bio foam and fully encased seams. Additional weight and tamperproof fasteners can also be added to the chair for enhanced safety.
