Pull and flip to sleep

Sit or sleep in comfort with Dreme™. This space conscious sleeper series sets up quickly with a simple pull and flip design, offering a dedicated, cleanable and moisture barrier sleep surface. This popular series includes models with or without backrests and arms. Options include tablets, power capabilities and lined storage compartments for linens.

All Dreme models require zero wall clearance when adjusted. Dreme includes Global's commitment to support the rigors of healthcare environments with durable construction and ease of housekeeping features including clean out spaces and optional sealed seams and casters. More than 500 performance healthcare textiles are available directly from Global in addition to COM specification.

Seating shown with Walnut Heights panel and Toast legs.

Four models for the perfect fit

Dreme sleeper armless sofa with upholstered back and pull-out front panel.

Dreme sleeper sofa with upholstered back, single left arm and tablet (single arm without tablet also available). Flip and rotate tablet is optional on sofas with arms. Upholstered pull-out front panel shown.

Dreme sleeper bench, low profile design, positions well below room windows to welcome natural light. Optional laminate, pull-out front panel shown.

Dreme sleeper sofa with upholstered back and arms. Optional laminate, pull-out front panel shown. Optional power and USB outlet shown.

Seating shown with Walnut Heights panel and Toast legs.

Flip and store

An optional storage compartment is available on all Dreme sleepers to accommodate pillows, linen and personal belongings. Optional White drawer liners provide for easy removal and cleaning. Each individual storage compartment has a hinged top to protect items from spills, fitted with a gas assist cylinder for easy opening.

Additional information can be found on the Global [website](#).

It's in the details
