

A modern interior scene featuring a patterned armchair and a round ottoman. The armchair has a complex geometric pattern in shades of brown, beige, and grey, and is supported by four light-colored wooden legs. Next to it is a large, round, light-grey upholstered ottoman. The furniture is placed on a light-colored wooden floor. In the background, a large window offers a view of a cityscape, and a thick, light-colored concrete pillar stands to the right. The word "drift" is written vertically in a large, grey, sans-serif font on the right side of the image.

Changing it up

Change is the constant that each new generation brings to the table. Drift™ seating encourages people to come together with new ideas, new priorities and new ways of thinking. The welcoming look is ideal for collaborative spaces in the workplace to community spaces in healthcare.

The series includes lounge and side chairs, bar and counter stools, and task swivel models, connecting people and places wherever the day takes us. The four leg and swivel wood base models, available in a wide range of popular finishes, bring added warmth to this contemporary seating series.

Seating shown in Luum Mitered, White Birch; Stinson Olivia, Tutu; and Luum Heather Tech, Oat Tech with arm patches in Release, Cottage. Maple four leg wood bases. Ottoman shown in Stinson Olivia, Tutu.

A new way to meet

The polished chrome swivel base gives Drift a sophisticated look, making it an ideal choice for upscale lounge and hospitality spaces. The swivel base makes it easy for someone to find a little extra privacy, or a quick way for friends and colleagues to bring their group together in a lively conversation.

Drift ottomans bring more people into the conversation as additional seating, a makeshift side table, or a footstool. Lounge and side chairs are available with options to support healthcare applications, including flip-forward seats, sealed seams, moisture barriers and tamperproof fasteners.

Seating shown in Luum Schema, Concept Map; Mayer Forte, Magenta; and Luum, Ample, Reaction. Polished chrome swivel column bases. Ottoman shown in Luum Ecotone, Badlands.

Bringing it back

Retro-inspired, the sled base models are a balance of proportions, bringing together the slender wire frame with a sculpted upholstered form. Choose from over twenty finishes, including options that coordinate with a near endless selection of textiles, allowing Drift to complement any environment.

Drift's optional arm and headrest vinyl patches offer a practical and unexpected addition to the chair, making it an ideal choice for active spaces that require extra durability. Create a playful look with contrasting patches, or opt for a blended look by aligning the patch color with the textile.

Additional information can be found on the Global [website](#).

We're on a roll

Drift's swivel and caster base models provide an elegant solution for compact meeting rooms, casual workspaces, remote offices and hospitality settings. The ease of movement offered by these models allows people to quickly tilt or roll their chairs, fostering teamwork and interaction.

Both base styles are finished in polished aluminum, rendering a classic and refined look that complements a wide range of interiors. From bold and bright to understated neutrals, Drift chairs can be upholstered in a wide range of textiles to make it yours.

Seating shown in Luum Schema, Mirror Stage; Luum Heather Tech, Crag Tech with arm patches in Release, Black; and Luum Ecotone, Abyss with arm patches in Release, Black. Polished aluminum swivel bases.

Occasional tables

Wood base models shown with round tops

Chrome base models shown with square tops
