frollick + splash

Multi-purpose seating for healthcare environments

Splash stacking four-legged armchair

Frolick stacking four-legged armchair

Frolick™ and Splash™ are perfect multi-purpose chairs specifically designed to meet the many challenges within healthcare environments. Two unique backs set the series apart; Splash features a fan shaped back while the Frolick back is rectangular. Both chairs are light in scale, yet heavy duty reinforced gusseted frames create a strong and durable solution.

The rear wall saver legs are styled to ensure stability, while eliminating accidental damage and marks on walls. Flat profile armrests extend to the front of the seat for added grip and ease of movement in and out of the chair.

Seating that supports patients and caregivers

Active weight capacity for standard size Frolick and Splash models is up to 300 lbs. Frolick bariatric models accommodate up to 500 lbs.

Moisture barrier and/or sealed seams can be added for superior levels of housekeeping and infection control. Tamperproof fasteners and additional weight plates are available for situations where protection against hiding contraband is required.

Frolick

Frolick stacking four-legged armless chair

Frolick bariatric sled base armchair

Additional information can be found on the Global [website](#).

Select Frolick models are designed with a separate lower portion back panel concealing the support brackets (back upholstery features a continuous border on the sides)

Select Frolick models with sealed seams are designed with a single piece back, with a pull-over style upholstery. Back support brackets fastened on exterior

Seat cushions, are standard with high density 1.5" Ultracell foam

Splash

Splash sled base armchair

Splash stacking four-legged armless chair

Additional information can be found on the Global [website](#).

Splash fan shaped back design features a two-piece upholstery solution, concealing back support brackets

The compound-curved seat cushion is constructed from high density, highly resilient Ultracell foam

Frolick and Splash features

A Shadow finished seat shroud is standard on the underside of regular seat sized models

Underside of seat surface can be completely sealed with no seat shroud (select models)

Wall saver rear legs eliminate accidental damage to walls and offer greater stability

Armrests standard in Black and available in Toast or Shadow

Heavy duty tubular gusseted frames available in Black, Latte, Kalua, Mocha, Shadow, Toast and Tungsten

On armless models, Black frames are standard with Black glides and leg caps, all other frame colors are standard with Shadow glides and leg caps. Additional glide options available

All standard size and four-legged chairs stack eight high on a dolly and five high on the floor. Four-legged bariatric models stack two high on the floor
