

gdc vitrola

healthcare

Designed for healthcare

GC Vitrola™ is a finely tailored, transitional reflection on the 19th century French Empire style, designed to support healthcare applications. Simplified geometry and proportions make it the right fit for community spaces, resident rooms and lounge areas. The seating series features two back heights for lounge chairs, two and three seat sofas, bariatric lounge chairs and benches.

Enhanced housekeeping and sanitizing requirements are supported with a clean out between the seat and back cushions. Fully upholstered arms are available with optional urethane or solid surface armcaps. Optional moisture barrier on the seat and sealed seams are available. Two textile upholstery specifications are also available.

Feels like home

GC Vitrola is designed to accommodate everyone. Standard seats support an active weight up to 350 lbs., single bariatric seats support up to 600 lbs. The series is backed by Global's Limited Lifetime Warranty and is BIFMA certified.

Additional information can be found on the Global [website](#).
