

include

Include brings everyone to the table in style

Include™ features a kinetic, synchro-tilter mechanism that automatically adjusts to a person's weight, providing a fluid motion with the correct tension and balance. Include's sleek profile and contemporary appearance make this seating series well suited for boardrooms, meeting rooms and executive offices.

The ergonomic back incorporates an articulating internal lumbar and support structure for lasting comfort. The polished aluminum cantilever arm features a flush integrated armcap in Black, Kalua or Shadow. Mid back and high back models are offered with or without arms.

Great tech, refined design

The molded foam seat features a waterfall front edge to ensure comfort and reduce pressure points when sitting for extended periods of time. The underseat structure is fully finished and designed to enhance the chair's refined profile.

Seating shown in CTL Prescott Leather, Black Ink with polished aluminum base.

Outstanding comfort

Choose from a wide selection of Global carded textiles for exceptional value and performance, or select from our Alliance Textile Partners program for the latest trends.

Additional information can be found on the Global [website](#).

Models

High back with arms

High back, armless

Mid back with arms

Mid back, armless

The polished aluminum arm features a soft urethane armcap. The 4" gas cylinder adjusts the seat height between 17" and 21", while maintaining a maximum arm height of 27" to clear the underside of table surfaces. The chair base is offered in Black nylon or polished aluminum (optional) to coordinate with the polished aluminum arms.
