Primacare is a purpose-built solution

Primacare is the benchmark in healthcare furniture, purpose-built for community and patient spaces.

Healthcare environments require purpose-built furniture solutions that respond to the unique requirements of people in care and those who care for them. The Primacare series is a modular solution that quickly becomes familiar to patients and caregivers, enhancing staff satisfaction and ensuring a safer working environment.

The Primacare split back chair features a smart fold down upper back, allowing the caregiver to safely access the occupant. The upper back is tethered to the interior metal frame for security and stability.

Repairable, replaceable and reconfigurable

Primacare is designed to be put together and taken apart as needed, allowing for on-site maintenance, replacement and reconfiguration of all components.

Metal-to-metal hardware connections provide integral structure and strength, accommodating up to 500 lbs. of active weight capacity. Primacare's durability eliminates the broken product graveyard.

Infection control

For the good of everyone's health. Primacare's design provides a full and easily accessible 360° clean out. Primacare finishes are constantly tested against the latest hospital grade disinfectants and cleaners for integrity and longevity.

Additional information can be found on the Global [website](#).

Better housekeeping

Optional urethane armcaps provide a non-porous, durable surface that withstands hospital grade disinfectants and cleaners.

The metal mesh seat suspension provides superior support, and the best response for patient incontinence with no catch points for fluid or residue.

Seating shown with Shadow metal frame and urethane armcaps, upholstered seats in Allante Free, White Crush and upholstered backs in LDI Enviroleather California, Bermuda.

Recline, effortlessly

Better by design. Primacare motion recliners follow the patient's intuitive response to reach for the arms when moving to a seated position. Additional ergonomic considerations include grip assist arms, built-in lumbar support, high density foam cushioning and waterfall edge seats to maintain circulation.

Seating shown with left and right tablets, upholstered seat and back in CF Stinson Core, Colonial Blue. Vion guest armchair shown.

A comfortable wait time for everyone

Improve the waiting experience with a customized solution. Adaptable to any size or type of space, Primacare is available in wood or metal frames, freestanding or modular linking configurations, three back heights, standard and bariatric care widths, open or closed arms and with or without center legs.

Additional information can be found on the Global [website](#).

You'll be fine

Rear wall saver legs reduce wear and tear on walls.

Inset: Seating shown with Latte metal frame and Kalua urethane armcaps, upholstered seats in CF Stinson Core, Lite Gray and upholstered backs in CF Stinson Artisan, Quill. Table shown with Latte metal frame and Dark Espresso laminate top.

Supporting patient needs

Primacare patient seating features an ergonomically contoured back and built-in lumbar support. A flex back option provides increased comfort. Tip and move casters can be specified on Primacare HT models.

Enhanced safety

A safer solution. Hip chairs take full advantage of Primacare's superior engineering and construction, including a higher seat, a step rail and a wider seat width. Grip assist arms help with getting in and out of the chair safely.

Care for the whole family

Primacare sleepers are perfect for extended visits and transition easily from a lounge chair to a sleeper with an integrated storage box for blankets, pillows and other personal items. Double seat models recline independently for added flexibility.

Additional information can be found on the Global [website](#).

An easy transition

Seating shown with Latte urethane armcaps, upholstered seats and backs in Maharam Stature, Egret.

Modular design

Primacare modular seating ensures perfect configurations for unique architectural layouts and occupancy requirements, providing a comprehensive one spec solution for healthcare design.

The series includes coordinating linking and standalone tables built with the same durable construction, available in various sizes and finishes.

Seating shown with Mocha metal frame and urethane armcaps, upholstered seats and backs in Mayer Genesis, Quartz. Tables shown with Mocha metal frame and Absolute Acajou laminate tops.

A pleasant atmosphere

Primacare lounge seating creates a warm and welcoming environment in healthcare spaces. A contoured back with built-in lumbar support and high density Ultracell foam cushions provide comfort for long or short wait times. Tables and seating feature optional integrated power/USB modules, allowing visitors to stay connected.

Inset: Seating shown with Tungsten metal frame, Toast urethane armcaps and Avant Honey laminate arm panels, upholstered seats and backs in Mayer Genesis, Quartz. Tables shown with Tungsten frames and Avant Honey laminate tops.

The softer side of Primacare

Gather in comfort. Primacare modular lounge seating is available fully upholstered, ideal for more relaxed healthcare settings. One, two or three seat models are available with wood or coordinating urethane armcaps and legs.

Seating shown with Noce Leggero wood armcaps and legs, upholstered seats and backs in CF Stinson Shimmy, Ice Blue. Tables shown with Noce Leggero wood frames and Designer White solid surface tops. Calidon coffee table shown

Dining conversations

Bring everyone to the table. Primacare dining chairs are designed for optimal comfort and are available with wood or metal frames to suit both senior care and acute care applications. Primacare's full 360° clean out streamlines housekeeping tasks in active environments.
