

GC3631 Patient Mid Back Armchair with open arms and urethane armcaps.

Primacare HT is the 'steel frame' version of the highly successful Primacare seating series. Primacare HT delivers the superior strength required in high traffic (HT) environments and visually coordinates with the original Primacare wood series to provide a comprehensive 'one spec' solution.

Infection control and housekeeping practices have been respected throughout the design, detailing and construction, making Primacare HT the number one choice for healthcare professionals, caregivers and specifiers.

Primacare and Primacare HT is the largest, fully integrated seating solution for acute care and elder care applications, and the 'perfect solution' for clinics, emergency, waiting, treatment areas, patient rooms, dining rooms and lounges.

Open arms.

Closed arms with fully upholstered side panels.

Urethane armcaps in several colors.

Solid wood armcap in a range of finishes.

Solid steel frames and MIG-welded construction.

Metal to metal connections provide superior strength and long life.

Metal mesh seat pan for drainage in the event of patient incontinence.

Separate seat and back provides clean out for housekeeping staff.

Removable seat cushion/upholstery for ease of cleaning or replacement.

Removable back cushion/upholstery for ease of cleaning or replacement.

Easily accessible fasteners for quick back removal.

Wall safe legs provide first contact to protect walls and chair back.

Arm grip extension assists getting in and out of the chair safely.

Durable non-marking glides.

Waterfall edge profile on seat cushion.

## FEATURES

High back, Medium back and Low back models are offered.

Contoured back with built-in lumbar support provides comfort and support.

Easy grip forward extending armcaps.

Armcaps are securely fastened with metal to metal connectors for easy field replacement.

3.5" High Density Ultracell Biofoam cushion.

Waterfall seat edge reduces pressure at the back of the knee, contributing to good blood flow.

Waterfall clean out between the seat and back.

Metal seat pan with no catch points to facilitate drainage and ventilation.

Rectangular steel frame throughout.

Die cast connectors and metal-to-metal fastening for strength and durability (patent pending).

Durable non marking glides.
