

triumph

Ergonomic comfort

High back weight sensing sychro-tilter

Triumph™ elevates executive comfort. Designed by Zoey Chu, Triumph provides ergonomic support with a range of adaptable features, including two tilting mechanisms, adjustable lumbar support, a seat slider for depth adjustment, and height adjustable arms with sliding and pivoting armcaps.

Seating shown in CTL Prescott Leather, Grayshadow.

Responsive lumbar support

Medium back weight sensing synchro-tilter

Triumph's polished aluminum back frame integrates the lumbar support mechanism. The outer back knob can be adjusted in and out for lumbar depth support and vertically for optimal positioning.

Additional information can be found on the Global [website](#).

Find your fit

Personalize the fit with two mechanism options. The weight sensing synchro-tilter mechanism automatically adjusts to the individual. The multi-tilter mechanism allows the seat and back angle to be configured independently for personal preference and support.
