

WILLOW

healthcare

Hello Willow, the everywhere chair for healthcare

Designed in collaboration with patients and healthcare professionals, Willow™ sets a new benchmark in healthcare seating. The chair's welcoming form and thoughtful detailing make it ideal for waiting and patient spaces. An extensive range of models, finishes and upholstery options support modular and stand-alone applications.

Seating shown with Sand frame, and upholstered seats and backs in LDI Debut Tuft, Glow. Tables shown with Noce Leggero tops.

Designed for care

Willow surfaces can be quickly and easily sanitized, respecting housekeeping time frames and workloads.

Willow is a purpose-built seating series for areas in acute, ambulatory and long-term care environments. The series supports people in care with a flexible and scalable seating solution for all patient areas. Willow truly is the “everywhere chair” for healthcare.

The Willow hip chair is designed with an elevated seat height and an integrated foot rail for added safety and comfort. A reduced seat slope allows for easier movement in and out of the chair.

Willow seating models are available with a grip assist arm specifically developed for healthcare. The ergonomically contoured shape of the extended armcap is easy to grasp and assists the patient with getting in and out of the chair safely.

This inclusive seating series is designed to accommodate a diverse community of people. The bariatric model is rated and warranted for up to 600 lbs. and also serves as a parent and child chair in pediatric settings.

Top left: Seating shown with Brushed Chrome frame and Sand frame, Sand arms, and upholstered seats and backs in LDI Debut Tuft, Glow.

A closer look

Polypropylene seat and back (available in 17 colors) provide enhanced sanitization

Grip assist arms provide additional support with getting in and out of the chair safely

Seat slope and profile prevent fluids from collecting on the surface

Waterfall front edge for comfort

Durable steel frame available in 20 eco-friendly powder coated finishes and 4 plated finishes

Fully color-matched under seat shroud for safe stacking and improved cleanability

Frame design features a wall saver leg to prevent contact with walls

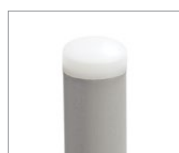

Glide options (see below) to best suit flooring types and site conditions

- Active weight capacity:
- standard size seating with glides is 400 lbs.
 - bariatric seating is 600 lbs.

Glides

Colored nylon (Black or Sand)

Non-marking nylon

Felt pad

Rubber pad

Steel cushioned

Seating shown with Chrome frame, and Sand seat and back.

A closer look

Waterfall arms and back shroud are color-matched and available in 17 colors

Specify with two textiles on upholstered seat and back models

Back shroud conceals hardware for ease of cleaning

Upholstered seats have no seams, moisture barrier is available

Under seat shroud is cleanable and conceals internal hardware

Caster options for various floor types

Active weight capacity:
• four-leg seating with casters is 300 lbs.

Sled base:
• models can be anchored to the floor
• an additional 25 lbs. can be added

Users' needs differ. Willow is available with two arm options: waterfall or grip assist. The ergonomically curved back and contoured seat provide even support without creating pressure points or restricting movement.

Upholstery options

Armchair, polypropylene seat and back

Armchair, upholstered seat and polypropylene back

Armchair, polypropylene seat and upholstered back

Armchair, upholstered seat and back

Willow can be partially or fully upholstered with optional sealed seams on the back and a moisture barrier on the seat. Mix and match with polypropylene or upholstered seats and backs.

Additional information can be found on the Global [website](#).

Model overview

Armchair, upholstered seat and polypropylene back

Armless chair, sled base, polypropylene seat and back

Hip chair, upholstered seat and back

Bariatric armchair, upholstered seat and back

Counter stool with arms, upholstered seat and back

Bar stool with arms, upholstered seat and back

A modular solution

Connecting tables, brackets and power options

16" in-line linking table

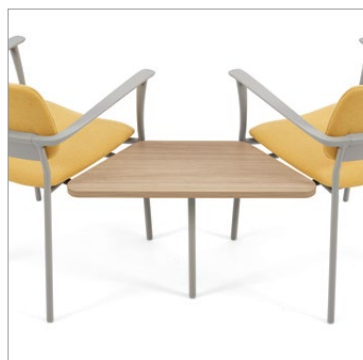

Willow combines comfort and durability with the flexibility of a modular seating series. Individual seats can be joined together with corner, end and in-line linking tables to suit the allocated space and application.

9" in-line linking table

90° corner linking table

120° corner linking table

End linking table

Optional power and USB charging, clamp attachment

Optional power and USB charging, undermount attachment

In-line ganging brackets

Be our guest

Willow's welcoming aesthetic extends beyond patient settings. The waterfall arm option offers an elegant and versatile solution for meeting rooms, common areas, hospitality venues and learning spaces. When minutes turn into hours, the chair's ergonomically contoured seat and back provide lasting comfort.
