## Floral, Enable and Tablet tables

The Enable™ table series (shown on the cover) combines thoughtful design with ergonomic function. With the addition of the E-Z Lift height adjustable dual arm tablet, wheelchair users gain a personal surface that adjusts easily to the ideal height. This simple yet powerful feature supports independence, making mealtimes and recreation more comfortable, enjoyable and accessible.

The Floral™ table (shown above) blends design with ergonomic function. Its surface shape is thoughtfully created to support interaction and socialization for individuals who rely on a caregiver during mealtimes and activities. Each corner features a gentle inward curve, allowing caregivers to position themselves comfortably and reduce awkward postures, avoid straining muscles and lower the risk of injury while providing care.

## Brings everyone to the table

The Tablet™ table (shown above) offers a unique solution for dining and activity spaces. Designed for everyday use, it features a fixed tablet extension that can be added with ease. The Tablet provides additional surface area and extra leg room for wheelchair users, making it easier to participate in meals and activities while sitting comfortably with friends and loved ones.

Tablet table and fixed height tablets shown in Walnut Heights with Black legs. Primacare seating shown.
