

St. Lawrence College:

Revitalizing the Brockville Campus Library

The renovation and expansion of the St. Lawrence College Library Learning Commons solidifies its role as the heart of the College's Brockville campus. Expanding and reconfiguring the space to enable more efficient use, and improving barrier free accessibility ensure the Library Learning Commons is an inclusive space for all students.

Creating a Better Learning Experience

Global mobile tables enhance flexibility and facilitate collaborative work in open areas, alongside meeting rooms equipped with smart board technology. New clerestory windows allow natural light to filter in, and Personal Harbor lounge seating create areas for individual work,

quiet focus and respite. A destination for collaborative work, peer tutoring, and study groups the new Library Learning Commons ensures a better learning experience for the College's student body.
