

INSTALLATION GUIDELINES

Screening Booth

STEP 1: Place left (A) & right (B) gables side by side with holes facing up. Install all Titus connector (C), Cams (D) and wood dowels (E). Do the same for the work surface (F), front panel (G) and roof panel (H).

2. Place Work Surface (F), Front Panel (G) and Roof Panel (H) vertically onto one of the gables.

3. Place Framed Front Screen (I) vertically onto the gable as well. Please choose which position you want the screen in (1.5" or 4" above work surface).

4. Place other gable onto assembly to complete the enclosure. Now tighten all cams to secure all panels.

5. Grab the unit from the top and pivot until upright.
