CHAIR SAFETY TIPS

Common sense guidelines to ensure that your Global chair will provide many years of comfort and service in a safe and productive environment:

- Always read and follow assembly instructions. Make sure that all the pieces of your Global chair are installed in the proper order to ensure structural integrity.
- Ensure that chair casters are fully inserted into the base of the unit.
- Inspect your chair for loose or worn parts at least once a year.
- Always keep the base of your chair completely on the floor.
- Most Global chairs are equipped with casters for use on carpeted surfaces. Other flooring surfaces may require different casters.
- Speak to your Global sales representative or refer to the Arm, Caster and Base section (page 331) of this price book for appropriate custom selections.
- Many Global office chairs are equipped with tilt tension controls on the seating mechanism. The tension control compensates for different body weights and postures. Always ensure that the control is properly adjusted for a smooth and controlled tilt motion. Your Global sales representative can demonstrate the proper use of all the adjustments on your office chair.
- Do not stand on your Global chair or sit on the arms of your chair.
- Do not put electrical appliances on chairs. Even fire retardant fabrics can be damaged when exposed to direct heat or flame.
- Choose the right chair for your work environment. Global offers a full line of intensive use, multi-shift and specialized chairs for environments with demanding health or safety requirements. Your Global sales representative is trained to help you make the right choice for your workplace.

EACH GLOBAL CHAIR IS BUILT WITH FEATURES THAT ARE ERGONOMICALLY DESIGNED TO PROMOTE GOOD POSTURE AND PROVIDE MAXIMUM COMFORT. WHILE FULLY SUPPORTING YOUR BODY, THESE FEATURES SHOULD ALSO ALLOW YOU TO ADJUST YOUR CHAIR TO FIT YOU.

A TENSION ADJUSTMENT
Increase or decrease to match body weight. Allows you to rock comfortably, without heavy pushing, reducing muscle fatigue.

B CHAIR TILT LOCK
Lock the tilt movement in position(s) to accommodate your working posture. Allows you to lock your chair in a comfortable and supportive position. (Can be either single position, multiple position or infinite position.)

C SEAT HEIGHT
Raise or lower to allow your feet to rest flat on the floor. Avoids pressure under your thighs, easing blood flow.

D BACK/LUMBAR HEIGHT ADJUSTMENT
Raise or lower to position lumbar support in your lumbar area. Reduces likelihood of back pain.

E SEAT DEPTH
Change the depth of the seat to accommodate the length of your thighs. Keeps your back in contact with the backrest while avoiding pressure behind your knees. Can be sliding (MD) or manual.

F SEAT ANGLE ADJUSTMENT
Allows chair to tilt forward changing the angle of your thighs in relation to the floor. Helps reduce disc pressure during forward leaning tasks.

G BACK ANGLE ADJUSTMENT
Adjust to change the angle of your torso in relation to your thighs. Helps reduce disc pressure and relaxes your back muscles.

H ARM HEIGHT
Raise or lower to support your forearms. Reduces muscular effort in neck and shoulders, minimizing risk of pain.

J KNEE-TILT MOVEMENT
Chair tilt pivot point is toward the front of the seat. Stability is maintained as the user reclines, keeping their feet on the floor and maintaining the same torso to thigh angle.

L SYNCHRO-TILT MOVEMENT
The seat pivots at the center point, while the backrest reclines at a faster rate than the seat, increasing the angle between the user's torso and thighs. Enhances comfort and encourages dynamic body movement.

M WATERFALL SEAT EDGE
Reduces pressure at the back of your knees, contributing to good blood flow.

N CONTOURED CUSHION
Supports the body effectively, allowing you to sit longer without discomfort.

P VIBRATING SEAT & BACK
Soothing effect contributes to your relaxation during work breaks.

Q WIDTH ADJUSTABLE ARMS
Allows outward movement of armrests to match shoulder breadth. Ensures armrests properly support forearms, reducing muscular efforts in neck and shoulders.

R ARM ROTATION
Rotate armcaps to support your forearms in various positions. Reduces muscular effort in neck and shoulders minimizing risk of pain.

S CENTER TILT
Chair tilts at the center point of the seat allowing you to recline while maintaining the same torso to thigh angle. When your feet are well supported, blood flow is enhanced.

U SOFT DESCENT PNEUMATIC LIFT
Gently and gradually lowering the seat helps you easily select proper seat height without causing a jerking motion.

V LUMBAR DEPTH ADJUSTMENT
Increase or decrease curvature of the back to match the profile of your lower back. Enhances comfort and support in the lower lumbar area.

MAXIMIZING YOUR ERGONOMIC SEATING

- Always select a chair that is designed for the type of work you perform and make certain the chair is comfortable for the length of time spent using it.
- Ensure that the seat and back cushions are contoured to fit your body, which will help eliminate pressure points.
- An ergonomically designed chair should allow changing positions easily.
- As you work, reposition yourself throughout the day to reduce strain and stress on specific muscle groups. If you change job functions, adjust your chair to fit the new task.
- Proper ergonomic seating should help eliminate many of the work related injuries that result from poor posture and poorly designed chairs.

- Standard with Global's high quality Soft Descent™ pneumatic lift which slowly and gently lowers the seat height of the chair making it easy to obtain the exact seat height you desire.
- Pedestal base models provide fixed location seating for use in auditoriums, classrooms, jury boxes, public venues and more. The base must be mounted to the floor (mounting hardware not included). See Pedestal Base Installation Guide on website for details.

model 3742

STANDARD FEATURES

- Tilter chairs are standard with a traditional style wood capped steel base.
 - Select tilter models have a tufted design with brass-colored nail head trim and vinyl bumper guards.
 - Select models have pneumatic seat height adjustment and tilt tension control.
 - All tilting chairs have a clear back edge bumper to protect the side of the chair from accidental impact or damage.

Both styles are considered acceptable and it is purely up to the personal preference of the purchaser.
- Wood finishes are available in Absolute (AAM), Black (BKM), Cherry (ACM), Espresso Cafe (ECM), English Oak (EOM), Fruitwood (TFM), Gray (HGM), Honey (AHM), Mahogany (TMM), Maple (AVM), Medium Walnut (MWM), Natural Walnut (NLW), Night (ASM), Noce Biondo (NBM), Noce Grigio (NGM), Noce Leggero (NEM), Noce Medio (NMM), Shaker Cherry (SKM), Walnut (TWM), WC Cream (WTM), White (WHM) and Winter Cherry (WCM). Please specify.

From boutique hotels to wellness resorts, the rich experiences that designers create for the hospitality industry are on the move to the places where we work, learn and heal. Erin™ seating is our latest contribution to this changing landscape, crossing conventional boundaries of work and play with options to support a diversity of people and interior applications.

Erin can be specified with sealed seams, moisture barrier and a wide range of Global performance textiles to support healthcare applications and environments with enhanced housekeeping protocols. The sculpted back provides an integrated clean out for ease of cleaning. Wood or metal legs are available in a range of finishes and glide options.

To see the full Erin series, please refer to the Healthcare price list at globalfurnituregroup.com/ca/healthcare/resources/price-lists.

Features and Benefits

- Erin offers a streamlined silhouette brimming with mid-century modern style.
- A rounded arch gently curves around and under the seat to give extra support to user's upper back and sides, while creating an open clean out space at the back of the cushion.
- Tapered legs add style and elegance and are available in wood or metal paint/plated finishes.
- The seat underside is sealed with a non-porous material to support housekeeping and infection control protocols.
- Additional improved cleaning options include sealed seams (back and/or seat) and moisture barrier (seat).
- Assembled with tamper-resistant fasteners for greater security.
- For added comfort, seat cushions are standard with high density Ultracell foam.
- Glides are self-leveling. Choose from standard non-marking glides, rubber non-slip glides or felt glides.

STANDARD FEATURES

- Popcorn is a high quality stacking chair, ideal for multi-purpose stack applications within corporate, government and healthcare facilities.
- Chair frame is constructed of 0.5" diameter solid steel rod available exclusively in a durable Chrome finish. There is no crossbar to interfere with feet or leg positions.
- Chairs are "wall safe". Rear legs hit the baseboard first leaving clearance between the back of the chair and the wall, saving both the chair and the wall from damage.
- Upper back features a cut-out hand hold to assist in stacking and transportation.
- Seat and back consists of a one-piece polypropylene shell for strength and ease of cleaning and disinfecting.
- Chairs can be ganged together using ganging clamp set 6626, providing no space between armchair models and 5" space between armless models.
- Chrome frame without glides is standard and suitable for cork, rubberized and carpeted floors.
- Task chairs are standard with five prong, injection molded, fiberglass reinforced nylon Black spider base and dual wheel carpet casters (C1).
- Task chairs are available with a tablet. Tablet arms are extremely rugged, suitable for armed forces and student use. Tablet hinges up to allow ease of egress. Tablet slides forward and back to accommodate any body size comfortably.
- Standard tablet (D8) size is 18"D x 14.5"W and is made of Black polymer. Tablets are attached at the left or right (as seated) of the task chair.
- Upholstery options: fabric, vinyl or leather. Vinyl and leather models may feature stitch detail across the seat and/or back cushions, if applicable.
- Upholstered models are equipped with a smooth Black shroud underneath the seat to help prevent frame imprints on the lower chair while stacked.
- Popcorn beam seating consists of upper seat units (6717, 6719) including mounting brackets and all hardware necessary for attachment to beam.
- For all beam components, tables and a complete list of available upper seat units, see Beam Seating series.

OPTIONAL FEATURES

- Polypropylene shell and coordinating arms are available in 14 designer colors: Buzz Blue (BZB), Cactus (CCT), Carrot (CRO), Cloud (IVC), Dijon (DJN), Eggplant (EGP), Fog (FOG), Frost (FRO), Ink (INK), Latte (LAB), Night (BLK), Sand (SND), Scarlet (SAR) and Shadow (SHW). Please specify.
- An optional 18.5"D x 18.5"W high pressure laminate writing tablet is available. The core is hardwood veneer plywood with a radiused edge and finished in clear lacquer. This writing tablet is offered in the following finishes: Black (BLK), Clear Maple (CMB), Designer White (DWT) and Noce Grigio (NGL). Please specify. Add \$68.

STANDARD FEATURES

- Sidero seating has a sculpted appearance, featuring wide curved arms and a round tubular steel frame.
- Sidero includes side chairs (arms and armless), available with casters or with a sled base, counter stools, bar stools and children's chair.

- The gently curved arms are made from incredibly strong fiberglass reinforced nylon.
- The back of the chair is compound curved to provide comfort and support in multiple seating positions. No visible back attachment hardware.

- Equipped with a polypropylene seat shroud that helps stabilize chairs when stacked and avoid frame imprints on upholstered seats.
- Four-legged models can be stacked. Stools and sled base models do not stack.
- Standard glide is durable Black polypropylene.
- Dual wheel carpet casters (C82) are standard on four-legged chairs with casters.
- Tablet arms are extremely rugged, suitable for armed forces and student use. Tablet hinges up to allow ease of egress. Tablet slides forward and back to accommodate any body size comfortably. Tablet models do not stack.
- Standard tablet (DB) size is 18"D x 14.5"W and is made of Black polymer. Tablets are attached at the left or right (as seated) Tablet arms are not available on stools.

TWILIGHT

model 2194WS (TBL)

model 2198C (TTU)

Twilight Back Cut-Outs. Available in wood back only.

STANDARD FEATURES

- Twilight series armchairs and bar stools feature a flared back design.
- Chairs can stack 5 high on floor and 8 high on dolly 2125WS. Stools do not stack.
- Comet series tables and connecting brackets are compatible with Twilight models.
- Frame is welded and gusseted 1" round tubular steel. Legs flare out to the rear to provide additional stability.
- Arm and armless models can be joined together using ganging clamp model 2180.
- Chairs are "wall safe". Rear legs hit the baseboard first leaving clearance between the back of the chair and the wall, saving both the chair and the wall from damage.
- Dual wheel carpet casters (C1) are standard on models with casters.
- Upholstery options: fabric or vinyl only. Vinyl models may feature stitch detail across the seat and/or back cushions, if applicable.

OPTIONAL FEATURES

- Models featuring a wood veneer back are available in Absolute (AAM), Black (BKM), Cherry (ACM), Espresso Cafe (ECM), English Oak (EOM), Fruitwood (TFM), Gray (HGM), Honey (AHM), Mahogany (TMM), Maple (AVM), Medium Walnut (MWM), Night (ASM), Noce Biondo (NBM), Noce Grigio (NGM), Noce Leggero (NEM), Noce Medio (NMM), Shaker Cherry (SKM), Walnut (TWM), WC Cream (WTM), White (WHM) and Winter Cherry (WCM). RIVER

Sample Layout

Sample Layout

STANDARD FEATURES

- A seating series that is composed of modular units in straight, curved and corner sections, as well as freestanding units. Soft seating models are available with standard height, high and extended high backs. Linking units can be used together in any combination to create a wide variety of layouts.
- Armless units can be ganged together with a quick connect, disconnect feature. Ganging hardware is standard and is factory installed. Ganging hardware swivels out of sight when not in use.
- Front edge of the seat angles slightly inward, so feet have freedom of movement and don't rub on the seat. This inward slant matches the inward angles of the back. Benches and connecting end tables also reflect the inward angles on the front and back faces, so all units coordinate in visual appearance.
- The unique tapered legs are made of welded steel, with each leg bolted directly to the unit frame. All units except for the laptop tables have the same leg height of 6.5". The leg height makes it easier to clean under the product.
- Legs are standard in Chrome with Black nylon non-marking height adjustable glides.
- All cushions are fixed and non-removable. Perimeter seams feature a decorative single stitch detail, which makes seams lay flat and adds extra seam strength.
- Seating frames are heavy duty with interlocking plywood, puzzle box construction, and are made for active environments. Seats are high density with highly resilient foam.
- Personal Harbor high traffic units are rated at 350 lbs., suitable for 24/7 use and should be specified in textiles that meet or exceed 100,000 double rubs (for the fabric portion of the warranty to apply). These units have the same puzzle box frame construction as other River models except the framing wood is 1" thick, rotary cut, birch plywood.
- Upholstery options: fabric, vinyl or leather. Leather only recommended on seat and may feature a horizontal stitch detail.

OPTIONAL FEATURES

- Most tables and seating units (except round benches) can be specified with power/USB units, which include two power outlets, two double USB terminals and a Black 5' three-prong power cord. Each power/USB unit is set in predetermined locations, as shown in the electrical illustrations below. Electrical units must be factory installed.
- Power/USB units are available with either Jet Black (J) face plate with Black power/USB receptacles or with a White (W) face plate with White power/USB receptacles.
- To add a power/USB unit, please specify (J1), (W1), (J2), (W2), (J3), (W3), (J4), (W4), (J6) or (W6) after the product model number. Please note on seating units, if both right and left locations are required, add both (J1/J3) or (W1/W3) to the model number. Add \$729 each.
- Coffee, end and laptop tables are made with high pressure laminate and are offered in the following finishes: Absolute Acajou (ACJ), Asian Night (ASN), Avant Cherry (AWC), Avant Honey (AWH), Blizzard (BZD), Clear Maple (CMB), Custom Grey (CGY), Dark Espresso (DES), Designer White (DWT), Stonedust (SDT), Walnut Heights (WHE), White Chocolate (WCH) and Winter Cherry (WCR). Please specify. Custom high pressure laminate finishes will be considered upon request.
- For leg finish options, please see page 356. No upcharges.
- If more than one fabric or a fabric/vinyl and leather combination is required, please fill out a "Seating Multiple Textile" form, specifying each fabric location. Please contact Customer Service for more information.

STANDARD FEATURES

- A modular series that is composed of straight, curved and corner sections.
- Same seat height units with no upholstered arms can be linked together to create a variety of layouts. Ganging hardware is standard (factory installed) and swivels out of the way when not in use.
- The unique tapered legs are made of welded steel, with each leg bolted directly to the unit frame. Standard leg height is 6.5". The leg height makes it easy to clean under the product.
- Legs are standard in Chrome (CHM) with Black nylon non-marking height adjustable glides.
- Modular, aluminum loop arms are sold separately (with or without nylon armcaps). These relocatable arms are field installed at any seat to back connector.
- Seating frames are heavy duty with interlocking plywood, puzzle box construction, and are made for active environments. Seats are high density with highly resilient foam.
- Seat to back connector components join back and seat; maintaining offset for cleanout. Connector is available in three finishes.
- All River+ seating models meet or exceed the applicable ANSI/BIFMA standards and are backed by Global's Heavy Duty warranty.
- River+ seating is rated for an active weight up to 600 lbs. per seat and 24/7 use.
- For heavy duty application, Global's Limited Lifetime Warranty is applicable only on fabrics that are rated for 100,000+ double rubs.
- Upholstery options: fabric, vinyl or leather. Leather only recommended on seat and may feature a horizontal stitch detail.
- All units are shipped fully assembled.

OPTIONAL FEATURES

- To add sealed seams to your product, please specify (S2), (SE) - see each model for upcharges.
- A 10" deep, 1" thick back shelf is available on two and three seater units, as well as select corner units, in many low pressure laminate finishes. Shelf supports are aluminum with accessory hook in three finishes. Weight capacity: Shelf - 50 lbs. per seat; Hook - 20 lbs. each.
- Units with shelf available with 6.5" leg. Back legs on these models are (E6) extended legs, as standard.
- To specify tapered legs on shelf models to match models without shelf, select (C6) leg with counterweight. Available on models ending in "S". Upcharges vary.
- Floor mount legs are available. Please specify (F6). Models with shelf will have extended legs. Fastening hardware not included.
- Products can be weighted to reduce the ease of movement. For additional weight options, please specify (CW) - see each model for available additional weight and upcharge.
- Underside of seat is standard with black lining (SB). For improved housekeeping and infection control practices, the underside of the seat can be finished with PVC (vinyl) and sealed to prevent penetration of liquids. Please specify (SU) - see each model for upcharge.
- Steel bottom provides tamperproof protection (includes tamperproof screws). Please specify (BS) - see each model for upcharge. Note: electrical option and ganging are not available with steel bottom.
- Most seating (except corner units) can be specified with power/USB units, which include one power outlet, one double USB terminal with a matching 120" three-prong power cord.
- Power/USB units can be specified in a variety predetermined locations, as shown in the electrical illustrations. Electrical units must be factory installed.

- Power/USB units are available with either Jet Black (J) face plate with Black power/USB receptacles or with a White (W) face plate with White power/USB receptacles.
- Tamperproof fasteners can be requested for a higher level of safety (ganging brackets are not included). Please specify (TP) - see each model for upcharge.
- For moisture barrier on seat, please specify (MB) - see each model for upcharge.

RIVER+ TABLES

model R27858

model R27864

model 7743

River+ Seating & Benches

For River+ seating, please see page 278.
For River+ benches, please see page 292.

STANDARD FEATURES

- A modular series that is composed of straight and curved sections, as well as freestanding units.
- Linking units can be used together in any combination with River+ seating and bench units to create a wide variety of layouts. Ganging hardware is standard and is factory installed. Ganging hardware swivels out of the way when not in use.
- Front and back faces of end (linking) tables angles slightly inwards. This inward slant matches the inward angles of River seating so all units coordinate in visual appearance.
- The unique tapered legs are made of welded steel, with each leg bolted directly to the unit frame. All units have the same standard leg height of 6.5". The leg height makes it easier to clean under the product.
- Legs are straight (vertical) as standard. Linking models are optionally available with an angled back leg to visually align with River seating units.
- Legs are standard in Chrome with Black nylon non-marking height adjustable glides.

OPTIONAL FEATURES

- Tables are made with high pressure laminate and are offered in the finishes listed on the right. Please specify. Custom high pressure laminate finishes will be considered upon request.
- Legs of coffee and end (linking) tables are available in 3" and 8" heights. All heights are available with fixed-to-floor option. Please specify.
- Products can be weighted to reduce the ease of movement. For additional weight options, please specify **(CW)** - see each model for available additional weight and upcharge.
- Most tables (except freestanding units) can be specified with power/USB units, which include one power outlets, one double USB terminals and a Black 120" three-prong power cord.
- Each power/USB unit is set in predetermined locations, as shown in the electrical illustrations below. Electrical units must be factory installed. Add \$881 per unit.
- Power/USB units are available with either Jet Black **(J)** face plate with Black power/USB receptacles or with a White **(W)** face plate with White power/USB receptacles.

Please add option codes in the following order:

HOW TO SELECT ARMRESTS

GLOBAL HAS A WIDE SELECTION OF ARMRESTS TO SUIT ALMOST EVERY WORK TASK. ARMRESTS ARE AN IMPORTANT FEATURE OF A CHAIR – THEY REDUCE STRESS AND TENSION ON THE SPINE, NECK AND SHOULDER MUSCLES BY SUPPORTING THE WEIGHT OF YOUR ARMS. THIS MAKES YOU MORE COMFORTABLE AND ULTIMATELY MORE PRODUCTIVE. HEIGHT, WIDTH AND ANGLE ADJUSTABLE ARMRESTS ENABLE YOU TO POSITION YOUR ARMS AT A COMFORTABLE WORKING POSITION, BASED ON THE TASK AT HAND.

COMFORT TIPS

- Wrists should be in a straight or neutral position - avoid bending your wrists.
- When mousing, use whole arm movements instead of flexing your wrist.
- Rest your palm on the mouse pad for support.

HEIGHT ADJUSTABLE ARMS

- A full range of arms is available with armcaps in self-skinned urethane (SSU).
- Use the features available on Global's adjustable arms to accommodate your ergonomic requirements.

VARI-WIDTH (FEATURES MAXIMUM COMFORT WHILE ENABLING YOU TO MAINTAIN TOP PRODUCTIVITY LEVELS).

Easy to use levers enable you to adjust the distance between armrests quickly and simply. An ergonomic feature, Vari-Width maximizes shoulder support as it accommodates the specific width requirements of each user.

- Metal adapter plates provide width adjustability. One adapter plate is attached under each side of the seat. Arms are inserted into the adapter plates.
- Arms extend outward up to 2" on each side. A lever locks each arm in any position.
- Vari-Width is available only with Global's height adjustable arms. The arm chart (on the following pages) specifies all arm options available for the Vari-Width series. Vari-Width is standard on many chairs; they can also be retroactively installed on chairs.
- When ordering, please specify series, arm and (WA) ie. Yorkdale 2331 (3N) and (WA). When ordering as retrofit, please specify 2280-WA.

ROTATING ARMCAPS

Rotating armcaps articulate inward and/or outward. This positions the arm to support mousing or keyboarding activities. Rotating armcaps can also be used to narrow the space between the arms for slender people seeking arm support while keyboarding.

SLIDING ARMCAPS

Select arms have sliding armcaps. They can slide over top of the seat to narrow the space between the arms for smaller users. Sliding armcaps also slide forward for arm support for larger users or slide to the rear allowing slender users to sit closer to their worksurface.

HALO ARMS

Halo arms meet or exceed standards set by CSA Z412-24, CSA Z1004-24 and BIFMA 10.1. Designed to fit 95% or more of the working population, they offer extensive adjustability across every armrest parameter, supporting diverse work habits and body types.

- 4 1/8" of height adjustment
- dual independent 360° rotation

Care and Cleaning

Textiles

Fabrics: To extend the life of your seating upholstered in fabric, regularly dust the chair to prevent airborne particles from penetrating the fabric surface.

For light soiling, use a damp cloth and blot the spot with very light pressure, taking care never to soak the fabric. Dry with a clean cloth by blotting - never rub fabric. More intense stains can be treated the same way, but with a mild detergent. Always test fabric first in an unseen area before using any cleaning method.

Leather: For regular cleaning, simply use a soft damp cloth, taking care not to soak the leather. For more thorough treatment, soak a soft cloth in a mild soap solution and wipe surface in a light circular motion. Repeat with clean water. Allow to dry and polish with a soft dry cloth. Do not use detergents, aerosol sprays or other polishes.

Hard Surfaces

Laminate, painted and plated metal finishes + solid surfaces:

Wipe the surface with a clean soft damp cloth; if needed, a mild soap solution (i.e. Ivory dishwashing liquid) can be used. To prevent streaks, dry the surface with a clean dry soft cloth moving in a circular motion.

Textiles

- **Water-based cleaner (W):** Spot clean, using the foam only from a water-based cleaning agent, such as a mild detergent or non-solvent upholstery shampoo product. Apply foam with a soft brush in a circular motion. Vacuum when dry. Pretest small area before proceeding.
- **Solvent cleaner (S):** Spot clean, using a mild water-free solvent or dry cleaning product. Clean only in a well-ventilated room and avoid any product containing carbon tetrachloride or other toxic materials. Pretest a small area before proceeding.
- **Water/solvent cleaner (WS):** Spot clean with a mild solvent, an upholstery shampoo, or the foam from a mild detergent. When using a solvent or dry cleaning product, follow instructions carefully and clean only in a well-ventilated room. Avoid any product that contains carbon tetrachloride or other toxic materials. With either method, pretest a small area before proceeding.
- **Vacuum only (X):** Clean this fabric only by vacuuming or light brushing to prevent accumulation of dust and grime. Water-based foam cleaning agents of any kind may cause excessive shrinking, staining, or distortion of the surface pile and therefore, should not be used.
- **Crypton cleaning (C):** Generally stains are removed with plain water and powdered enzyme detergent. Upholstery foam shampoo, water-based cleaning products and germicidal detergents can be used. Be sure to remove all residue from cleaning products with clean water. Do not use solvent-based cleaners or dry cleaning products.
- These recommendations and codes were developed by fabric specialists. However, because of the various ways fabric can be stained or damaged, there is no guarantee that the results will be completely successful. Use suggested methods on your own responsibility. To help prevent overall soil, frequent vacuuming or light brushing to remove dust and grime is recommended. Use professional furniture cleaning service when overall soiled condition has been reached.

This illustrated list price book has been designed to facilitate fast reference and easy use. Products are categorized into "seating", "desks", "files", "panels" or "tables" and are listed numerically within their categories. The line drawings match actual photographs (where possible) to aid in instant recognition of the total range within a series.

Sales of Global Furniture Group ("Global") products are made only on Global's standard Terms and Conditions of sale which are contained in this list price book. The "Purchaser" in these Terms and Conditions shall refer to Dealers and those who originally purchase directly from Global for use or re-sale. These standard Terms and Conditions may be modified or supplemented only by a separately written document signed by Global's authorized personnel at its head office in Toronto, Ontario, Canada. Any term or condition contained in any purchase order or other form used by the Purchaser to order goods (including standard, printed language) which is different from, in addition to, or in any way inconsistent with Global's standard Terms and Conditions shall be of no force or effect whatsoever.

All illustrations, specifications and prices in this list price book are based on the latest product information available at time of publication. Global reserves the right to make changes at any time and without prior notice to prices, colors, materials, specifications and models offered.

Description

Each product shown or described in this list price book is standard Global product. Available options are noted at the beginning of each series. Available options may require additional delivery time and cost, and may affect the warranty given. Sizes and weights shown are approximate and are subject to slight changes from time to time.

Prices and Payment

The prices shown in this list price book as well as those quoted by Global, are in Canadian dollars for orders shipped to destinations in Canada.

If shipping date requested is more than 90 days from date of order, Global shall reserve the right to use published list prices effective at time of shipment.

Orders are invoiced at time of shipment. Terms of payment are net 30 days from date of invoice unless otherwise stated. The Purchaser agrees that Global shall reserve the right to enforce a charge amounting to 1.5% per month (18% per year) on invoices outstanding more than 30 days.

If the Purchaser's most recent annual net volume is less than \$5,000, Global may suggest payment be made in advance.

All orders are subject to the Purchaser complying with Global's prevailing credit policy.

Any products sold by Global shall remain the property of Global until fully paid.

Prices are suggested list prices only and are subject to change without notice. Global will, however, attempt to keep the Purchasers up-to-date on all developments including price changes.

Taxes

All prices shown in this list price book are exclusive of sales, use, excise, HST and other applicable taxes and duties which may be the Purchaser's responsibility as per the invoice issued by Global. If the Purchaser claims an exemption from such taxes, it shall be the Purchaser's responsibility to furnish Global with an appropriate exemption certificate at time of order.

Ordering Information

Global requires that all orders be submitted in writing and will be acknowledged on Global's acknowledgement forms governing the transaction.

The details appearing on this acknowledgement will describe the items to be shipped and the approximate shipping date. It is the Purchaser's responsibility to determine that the information in the acknowledgment is correct. In the event of an error, the Purchaser must notify their Global Customer Service representative immediately by telephone followed by written confirmation. Shipping dates are assigned to orders based on the items having the longest manufacturing lead time (unless instructed to partial ship).

At time of order, please provide the following information:

1. Account number (if possible)
2. PO number
3. "Bill to" and/or "Ship to" and name and address
4. Complete model number and selected options including textiles/finishes
5. Special instructions and tag information
6. Shipping instructions, please indicate:
 - a. pick up
 - b. Global trailer program
 - c. common carrier, provide name of carrier, your account number
7. Special quote (SQ) # or MTM # (if applicable)
8. Customer's Own Material (COM), Global Purchased Material (GPM), Customer's Own Leather (COL), see below.
9. For specials and custom quoted product, please indicate the custom quote # on your PO. If changes are made to the quote a new quote must be issued prior to submitting the order. It is the Purchaser's responsibility to determine that the information on the quote is correct. Global will not be responsible for wrong product due to errors in the quote.

The above points will be checked by Global for accuracy. Global will process orders using the codes provided by the Purchaser. Price discrepancy is the responsibility of the Purchaser. The Purchaser must notify Global prior to invoicing.

The Purchaser is responsible for providing correct information at time of order. If no option(s) are selected the system will default to standard feature(s). Orders with missing/incorrect information (finish, etc.) will be put on hold until all information is complete. Orders will be scheduled for manufacturing upon receipt of complete information.

Changes and Cancellations

After the date of Global's acknowledgment of the Purchaser's order, the order may not be changed or cancelled by the Purchaser without the written consent of Global. Orders for products upholstered in "special order textiles" (GPM) cannot be cancelled once material has been purchased. Special order items, COM and textile-covered items already in production are not subject to change or cancellation under any circumstances. Textile-covered items are considered to be in production once the textile is scheduled for cutting. Other standard items already in production are subject to a minimum 35% cancellation charge.

Errors and Omissions

All quotations, acknowledgements and invoices are subject to corrections for any errors and omissions.

Castors

The list price book specifies the caster which comes standard with each chair model. Most chairs are equipped with C1 or C65 casters which are best used on carpeted surfaces. If it is intended to use the product on hard surfaces such as ceramics, concrete, linoleum or hardwood, it is recommended to use different casters. It is the responsibility of the customer to determine the standard caster for a particular product and whether such caster is appropriate for the given application. The Arm and Caster section illustrates the caster options offered by Global and their suggested uses.

FINISHES

Seating Finishes - Painted

Where painted frames are not a standard color, a special quote is required.

Seating Finishes - Wood Stained

A one time setup fee of \$250 net will be applied per order for custom wood staining/color matching requests. This payment will be valid for 5 years from the date it is set up. After 5 years, the \$250 setup fee will apply again. Restrictions may apply. The customer must provide a 3" x 3" color chip/sample.

For application of customer's own wood stain, there will be an upcharge of 10% list price, per unit (in addition to the option upcharge, when applicable). For orders with custom stain unit quantities of 30 or more, the upcharge may be reduced or eliminated. A [Special Product Request](#) must be submitted for a quotation.

Custom Wood Staining

Custom wood staining procedure for wood seating is as follows. Customer provides a sample of the desired wood finish. That sample is sent to Global's Specials Department. Several finished samples will be sent back. The customer/end user will sign off on the samples (keeping one for their records) and return the rest of the samples. Global will not necessarily match the wood species but rather will generate a color that will coordinate with the sample when it is applied to the wood species used in the seating frame.

File Finishes

There is no upcharge on any standard file finish. Any non-standard file finish must be approved by Global prior to acceptance of order and may be subject to an upcharge.

9300 Series, 9300 Plus Series, G Series Pedestals can be ordered in non-standard finishes with a 10% upcharge on orders up to and including 10 units. There is no upcharge on orders of 11 units or more.

Please note:

- You can only combine 9300 Series and 9300 Plus Series to meet the 11 unit minimum.

An upcharge of 10% will apply to Metallic, Mica and any non-standard White finishes regardless of the number of units ordered.

Wood Veneer Finishes

Because the distinctive characteristics and the nature of wood products cause variations, exact matches are not always possible. Global will not be held responsible if the finishes cannot be matched.

Customer's Own Material (COM)

Use of COM must be approved by Global prior to acceptance of order. Please submit the Authorization Request Form. Photocopy and use this form as often as necessary. The customer must provide a 12" x 12" textile sample and advise how the textile is to be applied and quantity of textile being sent. **Textile yardage requirement will be advised by the factory, and additional yardage may be required if pattern requires matching.** Upon approval from Global, send textile to the COM Department at: 596 Supertest Road, Toronto ON, M3J 2M5. Send to the address provided on shipping document upon approval from Global. If COM is difficult to apply or if product is required to be modified, extra charges will apply. Global reserves the right to cancel an order at any time if COM is inadequate for any reason. COM must be shipped freight and duties paid if applicable to our factory. Such shipment must be fully identified with the Purchaser's order number, and the item for which the material is intended. Performance of COM when applied to product is the sole responsibility of the Purchaser. Global's standard product warranty shall not apply to COM.

COM price is the lowest published price/grade for the series. The published yardage requirement for COM orders is approximate and shown beside each item in the list price book. The yardage shown there is based on the textile requirements for cutting and sewing a single chair in a plain patterned textile. For textiles with a pattern repeat or for COM orders involving 10 or more chairs, please consult with Customer Service for recalculation of the yardage requirements as this may significantly change the textile requirement.

Textile Grading

All products are priced according to their standard textile grade. Lower grade textiles may be available but at the same price as standard textile grade. See Textiles and Finishes section for graded textiles.

Combining two grades of textiles may result in a revised grade. Please refer to "Two Grades Combination Chart" in the Textiles and Finishes section. For more than two textiles a special quotation is required.

Global Purchased Material, Customer Specified (GPM)

Global may purchase material specified by the customer. Use of GPM must be approved by Global prior to acceptance of order. If it is difficult to apply or if product is required to be modified, extra charges will apply. Global reserves the right to cancel an order at any time if GPM is inadequate for any reason. Performance of GPM when applied to product is the sole responsibility of the textile vendor. Global's standard warranty will not apply to GPM materials.

Customer's Own Leather (COL)

Not all seating can be upholstered in leather. Please consult service notes for availability. COL price is the lowest published grade for the series (leather or fabric).

Upholstery Coverings

Slight variations in color may occur between dye lots. Although Global attempts to minimize these variances, they do occur and must be accepted as normal and will not be considered defects.

Leather is a Natural Product

Natural variations occur in the color, grain and texture of leather. As a result, a degree of variation should be expected. As leather is used it develops a patina. Its color changes slightly, it will get marked and it will stretch and pull, these are the hallmarks of genuine leather and are not considered defects.

Yardage

Required yardage (yd) is based on unmatched materials with widths of 54" for seating, 63" for panels.

Arms

A wide selection of arms are available for some series. See Arm Chart in the Seating list price book.

Weight

In the Seating list price book, weight is provided for both unit weight and carton weight. In the Desking + Tables and Metal Filing + Storage list price books, carton weight is provided.

Delays

Global's order acknowledgment will state a shipping date which is Global's best estimate at the time the order is acknowledged. However, Global shall not incur any obligation or liability to the Purchaser for failure to ship by specified date unless Global has agreed to an unequivocal shipping date in a separately signed written document executed by its authorized personnel at its head office. In addition, Global will not be liable for any loss or damage resulting from any delay or failure in shipment or other failure to perform all or any part of the agreement between the parties with respect to the goods shown on the face of the order acknowledgement where such delay, failure, loss or damage is the proximate result of any act of any governmental authority or political subdivision thereof, revolution, riot, civil disorder or disturbance, delay or default in transportation, strike disputes among or between labor unions or other labor disputes, delay or inability in obtaining materials and facilities, fire, flood, act of God or any cause not within the reasonable control of Global.

Free on Board (FOB)

FOB point is Global's Factory, Toronto, Ontario, Canada.

Courier Type Shipments

This symbol is used to indicate that the adjacent product can be sent by courier type shipments, such as Federal Express, Purolator, CanPar and UPS.

Shipping

The Purchaser must select, at time of order, one of two methods of freight payment. Global will make no end-user shipments unless special arrangements have been made.

1. FOB point of shipment, freight collect - pick up and common carrier.
2. FOB point of shipment, freight prepaid and invoiced to the Purchaser - Global Trailer Program.

All deliveries are dock to dock.

Service requests are normally the responsibility of Global's authorized Dealers. Where this cannot be accomplished on a local level, service problems should be referred to Global's Customer Service Department.

Returns

No returns of goods will be accepted without written consent and shipping instruction from Global. A minimum re-stocking charge of 35% is made on all authorized returns for credit or refund, provided goods are received by Global in the condition in which they left the factory. This may increase depending on the type of product. Global's Return Goods Authorization (RGA) numbers must appear prominently on all authorized returns. Global will not be responsible for return freight costs. No credit will be given if goods cannot be reused as new. Special order items, non-stock items and COM products are in no event subject to return. All returns must be approved and authorized in writing by Global Customer Service. Global reserves the right to refuse delivery of any unauthorized returns.

Claims

All goods are sold FOB plant or Global Distribution Center. Global is not responsible for damage which occurs in transit (or in storage). The carrier signs for all goods received in apparently good order. It is the Purchaser's responsibility to examine goods upon receipt and to file any claims with the carrier for losses or damage to the product occurring during transit, including concealed damage.

Any claims made against Global for apparent defects, errors or shortages must be made by the Purchaser, in writing, within 15 working days after any delivery. Failure by the Purchaser to make any claim against Global within 15 days shall constitute acceptance of the goods and a waiver of any apparent defects, errors or shortages.

Suspension

In the event that the Purchaser defaults in the payment of any sum due to Global, or in the event the Purchaser's financial condition becomes unsatisfactory to Global, Global shall have the right to defer or discontinue shipment of any goods until such time as the default is cured or the Purchaser provides assurance of payment to Global.

Global will make every effort to combine shipments and orders on written request. However, Global cannot be held responsible where such requests are not complied with.

Offer of Sale

Possession of this list price book or any other literature shall not imply the company's willingness to sell to the holder and shall not be construed as a direct offer of sale.

If a conflict arises between: (i) prices found in software support packages furnished to the customer by Global or by any other source on behalf of Global; and (ii) Global's current pricing found on Global's website, then the most current shall prevail.

Testing Qualifications

Many Global products pass or exceed the most stringent industry testing standards.

Disclaimer

Metric dimensions are provided for seating products for reference only. In the event that there is a discrepancy between imperial measurements and metric measurements, imperial measurements shall prevail. Prices shown are current manufacturer's suggested list prices at time of printing. Updated pricing is available on Global's website. All applicable taxes are extra. Descriptions, specifications and prices are subject to change without notice. Errors and omissions are subject to correction.

Fire Rating

The state of California recently repealed CAL TB133, but requests for it may still occur until local fire codes are updated and/or a national standard is declared. Global will no longer test products to meet CAL TB133.

The industry is supporting the adoption of CAL TB117-2013 as the accepted fire standard and will be what Global can support. CAL TB117 outlines performance standards and methods for testing the smolder resistance of cover textiles, barrier materials, filing materials and decking materials used in upholstered furniture. This is done by a "cigarette test".

CAL TB117-2013 does not require a fire blocker or any additional components to achieve the rating. All Global foams and textiles (carded & GPM) meet CAL TB117-2013 requirements without any harmful chemicals. Global can provide third party CAL TB117-2013 certifications upon request for any textile or foam by model.

Often the Fire Marshal will request 'NFPA 261', however, this is not a test required by our industry or provided by Global. CAL TB117-2013 is the equivalent and can be accepted at the discretion of the Fire Marshal.
