

**Bridges Feature List**

Our desire was to develop an environment for collaborative teamwork which would facilitate connection, or bridging, of people and ideas. A set of components which would even serve as a catalyst - inviting team members out of their cocooned comfort zones and encouraging them to engage, to co-create.

- Flexible building components:**
- single tables (freestanding or mobile)
  - training rooms
  - boardrooms
  - library
  - 1 person general and private office
  - 2 person work station
  - 3-person work station
  - 4-person work station
  - 6+ -person work station
  - Storage spine-based work station
  - Panel based work station

**Easy to customize / reconfigure** to fit specific requirements. From the facility manager's perspective, all work stations can be standardized to form a linear worksurface and power/data services, and their respective function, or purpose, can be governed by the type, quantity and placement of adjacent components like dividers, storage cabinets, shelves and accessories. These adjacent components can be easily reconfigured with minimal down time - without having to invite electrical and IT crew.

**Compatible with various environments** clean, simple, elegant design language with finishes suggesting comfortable, even domestic flavour. Wide range of finished various environments. From understated to some combinations, like anodized aluminum and white that give a hint of subtle sophistication.

**Choice of two functionally and visually differentiated leg supports** on casters or levelers: - height-adjustable round legs - fixed height rectangular legs with optional anodized aluminum finish

**Various power/data delivery levels to choose from:** - wire basket to organize cable excess under worksurface and storage - table leg integrated vertical cable manager - worksurface edge-mounted power/data units (easy to reconfigure, plug into wall/floor outlets) - single and double below worksurface power/data trough (desk top, floor standing computers and office equipment) - worksurface access door (access to below worksurface power outlets and data terminals) - above worksurface power/data trough (laptop / tablet / phone immediate access) - storage integrated power/data unit - horizontal cable management under storage units with optional wire basket - raised storage units for uninterrupted access to panel based floor raceway

**Interconnected storage units** can form a spine (space division, storage, cable management and worksurface support). Storage leg can be configured to act as a ganging bracket.

**Panel integrated storage units** can be connected and provide support to panel partitions (space division, storage, cable management, panel power/data delivery access and worksurface support). Panel integrated Bridges leg provides support to panel mounted worksurfaces.

**Bridges Collaborative Seating** collection consists of seating, privacy screens, tables, tablets and power. It is a versatile modular furniture series which can be configured into many space planning scenarios including corner, in-line, open concept, traditional reception as well as secluded seating with high privacy partitions.

**Worksurfaces**

- Worksurfaces are available in (HP) high pressure laminate and (LP) low pressure laminate.
- Veneer tops available, please contact your Customer Service Representative.
- HP laminate tops are 1 1/16" thick laminate particle board and have a flat 3 mm edge profile on all sides.
- LP laminate tops are 1" thick melamine particle board and have a flat 3 mm edge profile on all side.

**Tables**

- All single sliding rail tables are standard with casters.
- All multiple linear workstations are standard with levelers.
- Tops square for flush surface-to-surface abutment and to accept desk mounted accessories.
- Worksurfaces provided with pilot holes for alignment purposes.

**Worksurface Edge Profiles:**

HP/LP edge: 

**CODES:** The price list uses a numbering system with meaningful alphanumeric characters to create a simple-to-understand product number. This makes specifying the product much easier and more accurate.

**SPECIFICATION EXAMPLE OF A BRIDGES WORKSURFACE**

**PRODUCT CODE:** BRTWS2472HP MR71T CHR  
 BRT = Bridges  
 WS = Type of Worksurface  
 2472 = Size: Depth x Width  
 HP = Finish  
 MR71T = High Pressure Laminate  
 CHR = PVC Edging

**How To Specify:**

- Specify Bridges product code in appropriate top material.
- Specify top colour - ie. Laminate colour MR71T (Studio White Matrix).
- Specify PVC edge colour - ie. CHR (Charcoal).

## Technical Information - Rectangular Leg

### Support Leg and Frame

Single and shared worksurface support.

Bridges Rectangular legs are available with:

- Locking casters (BRTLCS)
- Levelers (BRTLVS)
- Casters and Levelers not retrofittable.

### NOTES:

- Levelers have a 2" height range, with 5/16-18 thread.
- Levelers are available in black only.
- 45mm high casters with 8mm thread, available in White Body/Grey Tire combination only.
- Leg frame is available in our (9) standard paint and anodized aluminum finish.
- Paint finish is durable environmentally friendly epoxy powder coating.

## Technical Information - Round Leg

### Support Leg and Frame

- Tubular steel legs are adjustable in 1" increments.

Single and shared worksurface support.

Height adjustment allows the user to easily set the height of a table.

Legs have a height adjustment range of 24" - 32" in 1" increments with levelers and 27" - 35" with casters.

Bridges Round legs are available with:

- Locking casters (BRTLCR)
- Levelers (BRTLVR)
- Casters and levelers are retrofittable on site.

### NOTES:

- Levelers have a 1" height range, with 3/8-16 thread.
- Levelers are available in Chrome only.
- Casters available in Tungsten/Black combination only.
- Casters are 3" diameter with an overall height of 3 3/4", with 3/8-16 thread.
- Inner leg is available in Chrome only.
- Leg frame is available in our (9) standard paint finishes.
- Paint finish is durable environmentally friendly epoxy powder coating.

Height Adjustable Leg

Fixed Leg

## Technical Information - Handle Options

Optional handle to provide a softer and slimmer alternative to standard Bridges2 storage handles. Radiused corners and edges. Can be retrofitted on site as the drilling hole drawer front pattern remains unchanged.

Finish matches anodized aluminum.

- Centre to centre hole pattern for Bridges 2 handles is 128 mm.

Standard Handle

Optional Handle

## BRTSLDT72CR • Sliding Table Kit (Round Legs)

- **Includes leg, leg support, sliding bracket hardware, 72" rail and hardware to secure table. Worksurface not included.**
- Maximum length of the Sliding Table surface is 48".
- Locking casters are 3" diameter as standard.

## BRT • 120° Corner Leg Kit

- One 120° corner leg kit combined with two single or double Leg Assemblies and support beams form the structure of the Bridges series 120° Tables.
- 120° corner leg kit includes one corner leg and adjacent, telescopic beams to support BRTWAC120 or BRTWAC120A 120° worksurfaces. Telescopic horizontal beams allow single or double Leg Assemblies to be positioned either under the worksurface (end of a run) or to be shared by adjoining worksurfaces. Levelers, steel frame, aluminum legs.
- Anodized aluminum leg upcharge \$30.
- Please specify paint finish for support.

## BRTHLEG • Boulevard Leg Assembly

- Boulevard Leg Assembly attaches to a Boulevard panel for applications which require functionality of Boulevard panels with an open environment of Bridges tables.
- One leg with horizontal member connecting to 1" increment slots in panel's vertical frame member. Provides support to panel and panel-connected worksurface at the end of a run; design coordinated with Bridges freestanding tables.
- Supports 24" and 30" deep worksurfaces. By adding 2 BHBF01 flat brackets and 1 BHBC02 corner bracket, a single leg can then support the adjoining worksurface. Leveling glide is standard. No worksurface supporting beams, use panel cantilevers and storage for worksurface support. One aluminum leg with steel structure - specify Left or Right and 24" or 30" deep for corresponding worksurface depths. Panel bracket, dislodgment clip and worksurface hardware included.
- Anodized aluminum leg upcharge \$30.
- Please specify paint finish for support.

## BRTCRL • 120° Corner Leg Kit

- Provides support for worksurfaces connected at 120° Degree.
- Single leg and beam assembly for 120° worksurface planning.
- Works with BRTWAC120 or BRTWAC120A worksurfaces.
- For a single table application two BRTSL (single legs) must be added.
- To join to a Back 2 Back table application, leg assembly will join to existing pod.
- Note: When joining to an existing table, the beam extends to reach the shared leg.

PRODUCT CODE	PRICE	SIZE / INCHES			WEIGHT VOL

## BRTRL • Round Table Leg Assembly

- Four leg assembly.
- Leveling glides are standard. Locking casters are available. Specify 4 casters (BRTLCR) at an upcharge of \$17 each.
- Maximum table diameter is 42".
- Includes all connecting hardware.

PRODUCT CODE	PRICE	SIZE / INCHES			WEIGHT VOL	
		H	W	D	LBS	FT <sup>3</sup>
BRTRL	705	28	24	24	16	2.33

## Beam Applications

Bridges II table legs are connected with supporting beams. Unless there is one beam for a single line of tables while two beams connect Back 2 Back table structures. Adjustable clamps at either end of the beam can be adjusted to accommodate the following applications in both single table as well as Back 2 Back table configurations.

### STANDARD TABLE BEAM

**Single table beam application** bridges two legs to form support for a single table, or two Back 2 Back work surfaces.

Adjustable clamps at either end of the beam are pushed all the way in to allow both table legs to be tucked under the work surface.

**End of run table beam application** supports one table leg assembly tucked under work surface (one adjustable clamp pushed all the way in), while the other table leg assembly can be shared between two adjacent work surfaces (adjustable clamp pulled out to extend the beam).

**Interconnecting table beam application** supports both table leg assemblies extended to support adjacent work surfaces on either side. Both adjustable clamps pulled out to extend the beam at either end.

### TELESCOPIC TABLE RETURN BEAM

Supports a return connected perpendicularly to a 24" or 30" deep primary work surface. The Telescopic beam is connected to a single or Back 2 Back leg on one side and to any work surface-supporting beam on the opposite side. Telescopic beam clamp allows the table leg to be tucked under worksurface or shared between two adjacent worksurfaces.

### TABLE TO TABLE TELESCOPIC BRIDGE BEAM

Supports a 36" to 84" wide top connected perpendicularly between two freestanding tables. Adjustable brackets on both sides of the beam connect off module to the perpendicular standard beam and can be adjusted to accommodate 24" and 30" deep primary worksurfaces.

### TABLE TO STORAGE TELESCOPIC RETURN BEAM

Supports a return connected perpendicularly to a 24" or 30" deep primary work surface on one end and a storage cabinet on the other. This allows the return worksurface to be layered otop of storage without the need for an additional leg assembly.

### STORAGE TABLE BEAM

The Storage beam is connected to a single or Back 2 Back leg on one side and to the work surface on the opposite side - thus saving one leg (assembly work surface is connected to storage units with included storage brackets). Storage table beam's flexibility allows for a single table application (with the table leg tucked in under the work surface) as well as for a double table installation (two adjacent tables supported by a shared leg in the middle and two storage cabinets at the opposite ends).

### STORAGE TABLE BEAM ADAPTER

Connects to Storage table beam. This assembly allows a work surface to be supported by a leg on one side and a spine (formed by interconnected storage cabinets) on the opposite side.

**BRTSB-C • Standard Table Beam**

- **Standard table beam bridges two legs to form support for a single table, or two Back 2 Back work surfaces. Adjustable clamps at either end of the beam accommodate Standard table beam, end of run and interconnecting table beam applications. Adjustable brackets ship attached to the beam.**
- Specify Single Table Beam size corresponding nominally to the worksurface length. Includes all hardware necessary to connect to legs. Powder coated steel beam and aluminum cast clamps.
- Specify metal finish.
- Distance between bottom of beam and floor of standard height application is 25 3/8".

**BRTBB-C • Bottom Table Beam**

- **Bottom table beam connects to the lower cross beam on the 36" and 42" high "H" leg to create the footrest.**
- One beam required for each table
- Cannot be used as a substitute for the standard table beam.
- Specify the bottom table beam that corresponds to the worksurface length. Includes all hardware necessary to connect to "H" leg. Powder coated steel beam and aluminum cast clamps.
- Specify metal finish

**BRTTB-C • Telescopic Table Return Beam**

- **Provides support for a worksurface connected perpendicularly to a run of primary tables.**
- Can be adjusted to accommodate 24" and 30" deep primary worksurfaces.
- Adjustable clamp secures the beam to a Leg assembly on one side, while the other side of the beam connects off-module, to the perpendicular Standard Beam.
- The adjustable clamp can also be extended to allow for the leg to be tucked in under the work surface or to be shared by two adjacent work surfaces.
- Includes all hardware necessary to connect to legs.
- Powder coated steel and die-cast aluminum clamp.
- Distance between bottom of beam and floor of standard height application is 25 3/8".

**BRTSA • Storage Table Beam Adapter**

- Storage table beam adapter allows a worksurface to be supported by a leg on one side and storage spine on the opposite side. A typical Storage spine is formed by series of interconnected 21" or 25" high storage cabinets of corresponding depth.
- The Storage beam is connected to a single or Back 2 Back leg on one side and to the worksurface on the opposite side - thus saving one leg assembly.
- The 21" or 25" adapters provide structural support - acting as supports between top of the storage cabinet spine and the bottom of perpendicular worksurfaces.
- The flexible leg/beam/adapter assembly arrangement allows the leg to be tucked in under the worksurface or to be shared by two adjacent worksurfaces. Included hardware connect the adapter to the worksurface and to the Spine storage beam adapter tower.
- Note: Specify Storage Beam nominally 18" shorter than worksurfaces for storage spine support application.
- Specify Storage Spine Adapter BRTSA21 (21") or BRTSA25 adapter (25") - depending on the height of Bridges storage units forming the spine.
- Includes all hardware necessary to connect the adapter to the beam, worksurface and storage spine.

**BRTTVFT • Display Wall: Monitor Facing Double Work Station**

• Display wall mounts to the end of bridges Back 2 Back table assembly supported by bridges rectangular legs.

- Display faces the double work station - facilitates seated presentation area.
- Includes laminate board, TV/display brackets (black), mounting hardware, vertical cable manager (black). Slim (22mm) bracket capable of supporting displays/TVs up to 50" (resp. 62") wide, up to 80lbs. When installed, top of the 52" x 50.5" (resp. 62.5") wide board reaches 65.5" high.
- 1" LP or HP laminate board with 3mm edging. Different HP laminate finishes expand product functionality. For instance: white dryerase marker board laminate can be specified on "non-display" board surface. Specify laminate finish, HP laminate position (Display side, non-display side) and edging.
- Note: Included vertical cable manager passes through the gap between two Back 2 Back work surfaces. Should you need one continuous, uninterrupted surface specify Display Wall table top with a scoop (listed in the Work surface section of bridges Price List).
- Display wall mounts to the end of Bridges Back 2 Back table assembly supported by rectangular legs or Back 2 Back table structure with BRTWS-SCP Display Wall Table Top with scoop. As opposed to two separate Back 2 Back work surfaces, the BRTWS-SCP Display Wall Table Top provides one continuous, uninterrupted surface with a scoop cutout next to the display wall (the scoop facilitates cable passage from below the table top).
- Please add \$422 for white, dry erase on 51" wide Display Wall and \$576 for 63" wide.

## Power delivery / cable management

At the basic level, table and floor based office equipment is serviced by a wall or floor power supply. As the operation grows, there might be a need to organize excessive cable clutter.

Cable Basket (1) connects to the underside of worksurfaces with steel brackets and cables are simply dropped and coiled into them.

Cable Snake(2) installed in proximity of floor monument to manage vertical cable clutter.

Table clamped, single circuit Desk Top Power Data Modules (3) deliver services to desk height, while tapping into wall or floor power supply. Again, the excessive cables can be managed with Cable Baskets.

Ceiling pole BRTCPP (4) manages power and data cables between ceiling and above or below worksurface power troughs.

Above and Below Worksurface Power/Data Troughs (5) can be installed between Back 2 Back tables for extended below and above desk height power/data distribution. - 8 wire, 4-circuit system.

Single Sided Power/Data Troughs (6) can be installed to the underside of a single table.

Elevated storage units provide access to floor raceway power duplexes and data terminals (7). 1" gap between panels and storage allow for easy passage of cables.

Some storage units can be connected to panel vertical slots and those allow to open and access panel floor raceway.

Storage power/data box BRTVCM (8) attaches to storage units and provides access to one duplex/data terminal on top storage surface. Integrated single circuit module can be plugged to floor monument under the storage, to a wall outlet or to a panel floor raceway duplex receptacle.

NOTE: Specify BRTHH58 (9) to distribute power from double sided, Back 2 Back below worksurface power trough to a single sided, below work surface power trough at the end of a table run.

Leg shroud (10) attaches to 34" wide legs and manages power floor feed as well as data cables from floor monument.

## Electrical system

An 8-wire, 4-circuits, 3+1 electrical systems complies with UL 1286

8 Wires	4 Circuits	Receptacles
4 Lines (12ga.)	3 Utility Circuit	Duplex - Up to 6 duplex receptacles per circuit
2 Neutrals	1 Isolated Circuit	
2 Grounds (12ga.)		

Specifications  
120 VAC system rated at 20A (15 CSA)

**BRED50 • Duo Module**

- The duo power module is completely integrated with a mounting clamp to attach to the edge of a worksurface.
- Provides two outlets and two 2.1 amp USB ports.
- White face plate, outlets and bracket; 72" long three-prong white cord, white body.

## ModPower Power Solution

- Power solutions for flexible spaces. Connect up to four units (in Canada)/six units in the USA from a single infeed with NEMA plug to deliver power and charging ports to the table top. In-surface modules and clamp on modules available.
- Easy to install; code compliant that allows users to optimize any space providing convenient power access. Perfect for training areas, meeting rooms, in-office workstations and more. Units feature tamper-resistant receptacles as well as both USB-A and USB-C charging ports.
- Easy to use connectors that are touch-safe with added latch to prevent unintended separation. Easy push together to connect, and simple press down on latch to disconnect.
- Maximum overall length not to exceed 48.5 feet per infeed. UL listed to UL962A SD, the standard for furniture power distribution units for portable/moveable work space tables.
- Certified to CSA standard C22.2 No. 203-16.
- Will work with Licence, Terina and Bridges Products.
- Surface mounted module ships with a clamp mount that will accommodate any material 1/2" to 1-1/2" thick; additional brackets are also included for screw in mounting options that can accommodate vertical or horizontal positions.

## GMDSF10 • ModPower In Surface Starter Unit

- ModPower starter unit includes one 10' cord with a NEMA plug and one 3' connector cord.
- Unit equipped with three 15A tamper resistant receptacles, one USB-A and one USB-C charging ports and a circuit breaker.
- 4 cable management cord clips included.
- MG at the end of the code indicates a magnesium finish, while WH is a white finish.

**BRTETA-KIT • Above Worksurface Power Trough**

- **Above Worksurface Power Trough Kit Facilitates power distribution and data/communication cable management.**
- Formed steel trough is secured between Back 2 Back stations. Not suitable for single table assemblies.
- Power Trough Kits 36-72 consist of one double sided steel trough, Power Distribution Housing, mounting brackets and one charcoal grey extruded Data/Communication cable manager.
- Power Trough Kits 78 and 84 consist of two double sided steel troughs (BRTETA78KIT = BRTETA36 above KIT + BRTETA42KIT + Jumper. BRTETA84KIT = BRTETA42KIT + BRTETA42KIT + Jumper), two Power Distribution Housings, mounting brackets and two charcoal grey extruded Data/Communication cable managers.
- Specify Duplex receptacles separately. 36" trough can house one duplex per side and 42-72" trough can house two duplexes per side, 78" trough can house three duplexes and 84" trough can house four duplexes per side. Specify Jumpers between tables separately.
- Ceiling feed entry through slots at either end; base feed entry at either end.
- Each trough provides two openings 1.37" x 2.68" (one per side) for data/communication terminal plates. A single terminal plate (not supplied) can accommodate up to 4 data/communication plates.
- Data/comm plate spacer BRTPDS available to accommodate larger cable-to-terminal bending radius
- Each trough provides two openings 1.37" x 2.68" (one per side) for data/communication terminal plates. A single terminal plate (not supplied) can accommodate up to 4 data/communication terminals (jacks).
- Painted finish.
- Specify above worksurface power trough end cap BRTETEC to finish open ends of the power trough.
- Each trough includes one black (BRTPDS) data/comm spacer extending the depth behind the data/comm jacks by 0.6". White (BRTPDSW) and Silver (BRTPDSS) are also available as an option. Additional spacers may be purchased individually for \$45 list, see BRTPDS.

**BRTTEST-KIT • Back 2 Back Storage Tower Gap Filler Kit**

- **Consists of a formed sheet metal cover and four brackets which allow the cover to be mounted at either above worksurface power trough level or below work surface power trough level.**
- Versatile brackets secure the cover trough at corners, to the bottom of Back 2 Back work surface supported by either shared 51 or 63 legs or storage beam and storage towers.
- Note: the Back 2 Back storage tower gap filler is not compatible with single, freestanding tables.
- The BRTTEST15kit covers the gap between two Back 2 Back BRTT5024x or BRTT5030x storage towers.
- The BRTTEST30kit covers the gap between two pairs of Back 2 Back BRTT5024x or BRTT5030x storage towers.
- The BRTTEST24kit covers the gap between two Back 2 Back BRTTW5024x or BRTTW5030x storage towers.
- The BRTTEST48kit covers the gap between two pairs of Back 2 Back BRTTW5024x or BRTTW5030x storage towers.
- A corresponding harness is included.

**BRTVCM • Vertical Cable Manager**

- 6" wide vertical channel which can be secured to an end or in-between 21" or 25" high storage units of corresponding depth.
- Facilitates power / data transfer from a floor monument under storage cabinets or from a panel base raceway to top of storage units.
- The units can join other 18" or 24" deep storage units to form a storage spine.
- Floor clearance allows for access to panel floor raceway duplex outlets.
- Removable top with a Below Worksurface Power/Data Module provides easy access.
- Optional Cable Basket suspends off storage unit's bottoms and manages cables along the horizontal plane. 3/4" LP chassis, fronts and back (specify LP finish), 1" top (specify LP or HP finish); unfinished cut-out edges. Universal connecting hardware included.
- Flush-mounted Trio Plus Bezel Module (BRETPE55) included
- Provides three outlets and two 2.1 amp USB ports and an adapter kit containing blank cover, HDMI, RJ45 or VGA adapter brackets. Note: HDMI, RJ45 and VGA connectors are not included.

**BRTETB-SKIT • Below Worksurface Single Power/Data Trough**

• **Below Worksurface Single Power Trough Kit Facilitates power distribution and data/communication cable management.**

- Formed steel trough is secured below a single table work-surface; outlets are facing the rear worksurface edge.
- Not suitable for Back 2 Back tables
- Power Trough Kits 36-72 consist of one single sided steel trough, Power Distribution Housing, mounting brackets and one charcoal grey extruded Data/Communi-cation cable manager.
- Power Trough Kits 78 and 84 consist of two single sided steel troughs (BRTERB78KIT = BRTETB36KIT + BRTETB42KIT + Jumper. BRTETB84KIT = BRTETB42KIT + BRTETB42KIT + Jumper), two Power Distribution Housings, mounting brackets and two charcoal grey extruded Data/Communication cable managers.
- Specify Duplex receptacles separately. 36" trough can house one duplex, 42-72" trough can house two duplexes, 78" through can house three duplexes and 84" trough can house four duplexes per side.
- Specify Jumpers between tables separately.
- Base feed entry at either end; no ceiling feed.
- Each trough provides one opening 1.37" x 2.68" for terminal plate (not supplied). One terminal plate can accommodate up to 4 data/communi-cation terminals (jacks).
- Each trough includes one black (BRTPDS) data/comm spacer extending the depth behind the data/comm jacks by 0.6". White (BRTPDSW) and Silver (BRTPDSS) are also available as an option. Additional spacers may be purchased individually for \$45 list, see BRTPDS.
- Painted finish.
- Note: Please specify BRTETB36SKIT Single Trough Kit for 120° Degree Tables BRTWAC120

**BRTCB • Power/Data Cable Basket**

- Shallow, 8" wide basket manages cable excess. If suspended below Back 2 Back worksurfaces, it facilitates the simplest way of electrifying a workstation. The equipment can be plugged directly to a wall or floor monument outlets and the Cable Basket serves to manage cords and cables. It can be easily unclipped from steel brackets (included) to rearrange cable connections from below the worksurface.
- The same steel brackets can suspend the Cable Basket below storage cabinet's bottom where it keeps the cords and cables off the floor and manages them under storage cabinets along the horizontal plane - between panel base raceway outlets, floor monuments and Storage Vertical Cable Manager, for example.
- Tall storage cabinet's legs provide easy access to the Cable Basket where it can be easily unclipped from steel brackets (included) to rearrange cable connections.
- Note: wide Cable Baskets can span under several storage cabinets. As a general rule - specify Cable Basket min. 8" shorter than the storage cabinet spine assembly.
- Steel wire construction, black finish baskets; black steel hanging brackets, fasteners.
- BRTCB76KIT contains 2 pieces BRTCB34.

**Applications**

Combining **Bridges tables with BRPX3P table mounted dividers** increases power, data capacity, offers optional, integrated desk-height power/data access and enhances sense of privacy with fabric covered panel tiles. Optional Accessory tiles support paper-organizing accessories.

**Non-powered BRPX3P dividers combined with BRTETB power troughs.** The troughs in this instance provide power/data distribution and access, while the BRPX3P dividers enhance sense of privacy and, with accessory tiles in place, provide support for bridges paper accessories.

Notice that the dividers combined with power troughs do not distribute any power.

Specify quantity and finish of BRA3VTRF22 vertical aluminum flat end trim at either end.

**BRPX3P dividers with built-in 8-wire, 4-circuit power distribution system and data.**

The BRPX3P dividers provide power/data distribution, desk-height access, while enhancing sense of privacy. When specified, accessory tiles can provide support for Bridges paper accessories.

Note: **Powered BRPX3P dividers cannot be combined with BRTETB power troughs on freestanding Bridges tables.** They both require separate, dedicated base feed, and BRPX3P Divider's base feed would physically interfere with the BRTETB below work surface trough.

BRPX3P dividers and BRTETB below work surface troughs can only be combined if the **power to the BRPX3P dividers is fed horizontally from adjacent Boulevard System 3 panels** (thus preventing base feed's interfering with the troughs). BRTETB below work surface troughs remain powered by BRTDIVPBF base feed.

Under certain conditions **powered BRPX3P dividers can be combined with BRTETB power troughs.** Thus, in addition to enhanced privacy and support for accessories, the BRPX3P/BRTETB electrified combo provides double layered power distribution system (each with 8 wires and 4 circuits) for customers with high power demands. Note that each layer needs its own power supply source base feed power supply.

Note: BRPX3P dividers and BRTETB below work surface troughs can only be combined if the **power to the BRPX3P dividers is fed horizontally from adjacent Boulevard System 3 panels.**

**BRPX3P Divider's base feed will physically interfere with the BRTETB below work surface trough.** BRTETB below work surface troughs remain powered by BRTDIVPBF base feed. Bridges BRTBF base feed and BRTDIVPBF divider base feed are dedicated, non-interchangeable components.

Specify quantity and finish of BRA3VTRF22 vertical aluminum flat end trim at either

BRTBAR4P2460L - 4-person pod (60" long work surfaces) dividers

BRTBAR4P2460L - 4-person pod 60" long work surfaces dividers power troughs

BRTBAR4P2460L - 4-person pod (60" long work surfaces) dividers

## Applications

Bridges table mounted BRPX3P dividers offers can be combined with Boulevard System 3 panels. Table mounted BRPX3P dividers will match in height 50" high Boulevard System 3 floor standing panel.

**BRPX3P dividers combined with BOULEVARD System3 panels.** Power routed through System 3 panels.

This example illustrates power routed from the System 3 panel assembly on the left, through the post and into table mounted BRPX3P dividers. Any 50" high System3 panel can be connected between two independent bridges table assemblies, but if you intend to route power/ data into the next bridges table cluster, specify BPX3PT Pass-through panel so that the cables could cross horizontally into the next table mounted BRPX3P divider on the right.

Specify quantity and finish of BRA3VTRF27 Bridges Divider trims which cover System 3 panel vertical face below Bridges table mounted BRPX3P dividers.

**BRPX3P dividers combined with BOULEVARD System 3 panels.** Floor feed. While table mounted BRPX3P dividers can be physically connected to 50" high Boulevard System 3 floor standing panels, power/data could be routed from the floor (as illustrated). There are two ways of facilitating floor feed. 1: Power could enter through the bottom of table mounted BRPX3P divider, into BE8U3FM60 housing and then continues through BPX3PT5060 or BPX3PV5060 pass-through panel into adjacent BRPX3P divider. 2: BE83BF base feed supplies BE8U3FM60 housing within BPX3PV5060 pass-through panel (with integrated vertical channel). BE8CP54HH Pass-through harness then feeds BE8U3FM60 housing within the table mounted BRPX3P divider on the right. BE8CP76HH Pass-through harness then continues through BPX3PV5060 pass-through panel into adjacent BRPX3P divider.

**Note:** These two examples are for illustration purposes only as **two power feeds must not be connected to one power distribution system!**

**Applications**

BRPX3MA25 and BRPXGMA25 Boulevard System 3 dividers facilitate seamless transition from panel-based office to open environment.

**BRPX3MA25 and BRPXGMA25 panels combined with BOULEVARD System 3.**  
Power routed through System 3 panels.

The first 50" high panel is furnished with face mount power through its integrated vertical channel.

Any equipment placed on top of the 25" storage cabinets can be plugged into the floor raceway (cables rising through the gap between the panels and the cabinet).

Specify quantity and finish of BRA3VTSF25 bridges-BLVD step down end trims.

BRPXGMA25 panel

BRPXGMA25 panel

The pair of work surface-mounted BRED50 Duo Modules on the right (plugged into the floor raceway) provide easy access to power at desk height.

Specify quantity and finish of BRA3VTRF25 vertical aluminum flat end trim at the end.

This example illustrates power routed at the floor level from the System 3 panel assembly on the left into BRPX3MA25 and BRPXGMA25 panels.

Combination of **25" high Bridges storage cabinets with BRPX3S storage mounted dividers** forms storage-based linear spine capable of delivering 8-wire, 4-circuit power distribution along the spine.

BRPX3S storage mounted dividers combined with Bridges 25" high storage.

BRPX3S dividers are secured to a storage-based spine formed by back-to-back Bridges storage cabinets of corresponding width (BRPX3S2136 divider secured to BRT25LBF36L, for instance). Optional Accessory tiles support paper-organizing accessories.

Storage mounted dividers reach 46" above the floor to suggest work station boundaries as well as to support paper organizers (with accessory tile installed).

Power enters the spine from the bottom, in-between the back-to-back storage cabinets and is then routed horizontally between the dividers.

Note: This assembly was conceived as a stand-alone application - **not compatible with floor standing Boulevard System 3 panels.**

Specify quantity and finish of BRA3VTRF22 Vertical Aluminum Flat End Trim at either end.

## Applications

**Note:** BRPX3S storage mounted dividers combined with Bridges 25" high storage was conceived as a standalone application. **It is not compatible with floor standing Boulevard System 3 panels.**

**BRPX3MA25 • 25" High System 3 Panel**

- 25" high System3 panel facilitates seamless transition from a panel-based, enclosed office to an open one. It can be connected to a cluster of panels on one side and continue with power / data spine distribution into collaborative areas.
- 25" high System3 panel also enables creation of a storage-based spine with full 8-wire, 4-circuit power and data capacity.

**BRPX3GMA25 • 25" High System 3 Panel**

- 25" high System3 panel facilitates seamless transition from a panel-based, enclosed office to an open one. It can be connected to a cluster of panels on one side and continue with power / data spine distribution into collaborative areas.
- 25" high System3 panel also enables creation of a storage-based spine with full 8-wire, 4-circuit power and data capacity.
- B3 panel Top trim option provided with embedded, frame-less glass pane rising 8" above the top of the panel. For instance, when installed on 42" high B3 panel, overall height will be 50" high.
- There is 1.25" gap between two adjacent glass panes.
- Glass shipped separately, Allen key to set the glass pane plumb is provided with each panel.
- 5mm tempered glass, acid etched on one side or clear.
- Square corners on glass.
- Integrated adjustable brackets and extruded aluminum trim.
- Cannot be retrofit on-site.

## Single Table Or Single Table Row Application; 16" and 30" high dividers

Table Mounted Framed Divider for single table or single table row; recessed 1.5" at both ends, mounted to the table with 0.6" gap at the back.

BRTMFD/BRTMLD 36" (33" actual) - 66" (63" actual) dividers have 2 mounting brackets.  
BRTMFD/BRTMLD 72" (69" actual) - 84" (81" actual) dividers have 3 mounting brackets.

Perpendicular Single Table End of Run Framed Divider;  
BREFD/BRELD 24" (21" actual for 24" deep work surfaces),  
BREFD/BRELD 30" (27" actual for 30" deep work surfaces),  
BREFD/BRELD 36" (33" actual for 36" deep work surfaces),

Two brackets secure the divider to the side edge of work surface. Flush with rear edge, 3" recessed from front work surface edge.

Perpendicular Shared Framed Divider;  
BRSFD/BRSLD 24" (21" actual for 24" deep work surfaces),  
BRSFD/BRSLD 30" (27" actual for 30" deep work surfaces),  
BRSFD/BRSLD 36" (33" actual for 36" deep work surfaces),

Single bracket secures the divider to the rear edge of work surface; Can be mounted off-module or over the seam of two adjacent work surfaces. Flush with the rear edge, 3" recessed from front work surface edge.

## Back 2 Back Table Application; 16" dividers

Perpendicular Back 2 Back Parallel Framed Divider secured between two back-to-back tables; recessed 1.5" at both ends; 0.6" gap between the divider and work surfaces.

BRPFD/BRPLD 36" (33" actual) - 66" (63" actual) dividers have 2 mounting brackets.  
BRPFD/BRPLD 72" (69" actual) - 84" (81" actual) dividers have 3 mounting brackets.

Perpendicular Shared Frame Back 2 Back Framed Divider;  
BRSDFD/BRSDLD 51" (45" actual for 24" deep back-to-back work surfaces)  
BRSDFD/BRSDLD 63" (57" actual for 30" deep back-to-back work surfaces).

One bracket secures the divider through the gap between work surfaces; two brackets locate top of the divider between two adjacent Parallel dividers.

NOTE: cannot be used on its own without the two Parallel dividers.  
3" recessed from front work surface edges.

Perpendicular Back 2 Back End of Run Framed Divider;  
BREDFD/BREDLD 51" (45" actual for 24" deep back-to-back work surfaces)  
BREDFD/BREDLD 63" (57" actual for 30" deep back-to-back work surfaces).  
Three brackets secure the divider to both side edges of work surfaces.  
3" recessed from front work surface edges.

Perpendicular Shared Framed Divider;  
BRSFD/BRSLD 24" (21" actual for 24" deep work surfaces).  
BRSFD/BRSLD 30" (27" actual for 30" deep work surfaces).

Single bracket secures the divider to the rear edge of work surface; Can be mounted off-module or over the seam of the two adjacent work surfaces. Flush with the rear edge, 3" recessed from front work surfaces edge.

Perpendicular Single Table End of Run Framed Divider;  
BREFD/BRELD 24" (21" actual for 24" deep work surfaces).  
BREFD/BRELD 30" (27" actual for 30" deep work surfaces).

Two brackets secure the divider to the side edge of work surface. Flush with the rear edge, 3" recessed from front work surface edge.

Note: Do not use framed dividers with glass dividers. Connection hardware will not fit.

**BRPFD/BRPLD • Back 2 Back Parallel Framed Dividers**

- **Secures to the underside of the worksurface**
- Divider frame and connecting hardware is painted, please choose from standard metal paint finishes.
- Fabric divider is tackable and always railroaded.
- Divider infill can be specified in fabric, low pressure laminate (LP), high pressure laminate (HP), dry erase whiteboard (DE) or dry erase magnetic whiteboard (DM).
- Installed divider measures 15.7" from top of worksurface.
- 36" to 54" dividers include 2 support brackets. 60" to 84" dividers include 3 support brackets.
- Note 60" - 84" dividers require 3 support brackets and cannot be used with worksurfaces that have a single access door

**BRTADF-H24 • Single Table Divider Felt Screen Kit, 24" high**

- Provides privacy in an open plan environment.

- Consists of a powder coated aluminum frame, 9mm felt and all hardware to connect. Brackets are painted steel.
- Side dividers extend 6.237" from the front edge of each surface.
- Back divider extends over the back edge of the worksurface by 1 1/2" allowing for the passage of cables to the trough.
- BRTADF24-H24 are for 24" deep surfaces and BRTADF30-H24 are for 30" deep surfaces.
- Width and depth are nominal sizes representing the sizes of the FreeFit Table. Allow for 1/4" overhang at the sides, 1 1/2" at the back and 6.237" at the front.
- Please choose any standard paint finish for frame and hardware. End trim cap is available only in CHR - charcoal.
- 9mm felt material is tackable and comes in a variety of colors.

## Storage Assembly

For a complete storage assembly, one must specify a top, a chassis and legs.

- 1 - BRT29LOBF-U
- 1 - BRTWU
- 2 - BRT-LEGL

- 1 - BRT29L2D-U
- 1 - BRTWU
- 2 - BRT-LEGL

- 1 - BRT25L2D-U
- 1 - BRTWU
- 2 - BRT-LEGL

- 1 - BRT25LBF-U
- 1 - BRTWU
- 2 - BRT-LEGL

- 1 - BRT21F-U
- 1 - BRTWU
- 2 - BRT-LEGL

- 1 - BRT25LO-U
- 1 - BRTWU
- 2 - BRT-LEGL

- 1 - BRT21LO-U
- 1 - BRTWU
- 2 - BRT-LEGL

For larger assemblies, legs may be shared.

- 1 - BRT25LO-U
- 1 - BRT25LBF-U
- 1 - BRTWU - ensuring the width of the surface equal the combined width of both storage chassis
- 3 - BRT-LEGL

**BRT21BF • 21" File Pedestal**

**Fits below Bridges tables**

- Can join with other 21" high storage units of corresponding depth to form a spine or slides out on casters to serve as an additional worksurface.
- Floor clearance allows for access to panel floor raceway duplex outlets; units on levelers accommodate installation of an optional Cable Basket to manage cords and data cables under storage spine.
- One file drawer (holds letter, legal and A4 suspended file folders except 18" pedestals).
- Optional Cable Basket suspends off storage unit's bottom and manages cables along the horizontal plane. (NO CASTER models only)
- Fits under table beams even with optional seat cushion.
- LP chassis and drawer fronts (specify LP finish) 1" top (specify LP or HP finish); metal handles, powder coated aluminum or anodized aluminum legs specify 5/16x2" levelers or 40mm white/grey, locking casters.
- Anodized aluminum leg upcharge \$55.
- Optional e-lock available in the vertical position. Please specify V-Vertical and add \$224 list.

**BRT25LBF042L • 25" Shared Storage**

- Shared units offer storage compartments on either side.
- Positioned usually between two adjacent Bridges workstations. The units can join with other 25" high, 24" deep storage units to form a storage spine or to serve as an additional return worksurface.
- Floor clearance allows for installation of an optional Cable Basket to manage cords and data cables under storage spine.
- One lockable file drawer, one box drawer, one open compartment with adjustable shelf per side. Storage compartment internal height without height adjustable shelf: 16.08". Optional 15.5" x 18" cushion.
- Optional Cable Basket suspends off storage unit's bottom and manages cables along the horizontal plane.
- LP chassis and drawer fronts (specify LP finish) 1" top (specify LP or HP finish); metal handles, powder coated aluminum or anodized aluminum legs.
- Anodized aluminum leg upcharge \$55.
- Black injection moulded pencil tray included.
- 25" high Bridges storage should not be used under Back 2 Back Bridges table applications using Below Worksurface Trough. Storage will not fit under the trough.
- Optional e-lock available in the vertical position. Please specify V-Vertical and add \$224 list.

## BRTSTS • Single Sided Elevated Table Shelf

- **Single sided elevated shelf.**

- Secured perpendicularly to the single or Back 2 Back Bridges tables. Integrated anodized aluminum accessory rail. White cut out and accessory rail trims.
- Optional Elevated Shelf Binder Bin rests on top surface - better utilization of vertical space, enhanced sense of privacy.
- Three heights available:
- 8" high provides additional storage space without obstructing view; reaches 16" module height when combined with 8" high Binder Shelf. Internal height 6.6".
- 13" high lines up with 42" floor-standing panels.
- 16" high lines up with top of 16" table dividers (15.8"). Specify 12" narrower Shared Elevated Shelf immediately adjacent to the perpendicular elevated shelf. Internal height 14.6".
- NOTE: In order to prevent interference ensure that the Shared Elevated Shelves immediately adjacent to the perpendicular elevated shelf which are of equal or bigger height are specified 12" narrower than the supporting worksurface.
- Optional Elevated Shelf Binder Bin (BRTESBBIN) rests on top surface - better utilization of vertical space, enhanced sense of privacy.
- See Accessory compatibility chart.

## BRTBTS • Shared Elevated Table Shelf

- **Shared, Back 2 Back elevated shelf; rests on Back 2 Back Bridges tables.**

- Cut-outs in both supporting side gables allow placement over Above Worksurface Power/data troughs. Integrated anodized aluminum accessory rail. White cut out and accessory rail trims.
- Three heights available:
- 8" high provides additional storage space without obstructing view; reaches 16" module height when combined with 8" high Binder Shelf. Internal height 6.6".
- 13" high lines up with 42" floor-standing panels.
- 16" high lines up with top of 16" table dividers (15.8"). Specify 12" narrower Shared Elevated Shelf immediately adjacent to the perpendicular elevated shelf. Internal height 14.6".
- NOTE: In order to prevent interference ensure that the Shared Elevated Shelves immediately adjacent to the perpendicular elevated shelf which are of equal or bigger height are specified 12" narrower than the supporting worksurface.
- Optional Elevated Shelf Binder Bin (BRTESBBIN) rests on top surface - better utilization of vertical space, binder/book manager, enhanced sense of privacy, magnetic board on the opposite side.
- LP chassis (specify LP finish); 1" top (specify LP or HP finish).

**BRTBASL • Shared Elevated Overhead with Sliding Laminate Doors**

- **Two compartments facing in opposite direction can be locked with sliding laminate doors. Storage compartment internal height: 12.25**
- Shared elevated overhead fits over the gap between two parallel Bridges Back 2 Back tables.
- Integrated anodized aluminum accessory rail below the storage compartments. Fits over Above Worksurface Power/Data Troughs.
- NOTE: In order to prevent duplex outlet and work surface access door interference, please specify overhead of the same width as the width of the supporting worksurface.

To prevent interference with ceiling feed pole please specify overhead 6" shorter in order width corresponding with the length of the supporting work surface. Elevated Shelf Binder Bins DO NOT work with this overhead. Bottom accessory rail accepts BALTO1 Letter Tray, BAMBO1 Media Bin, BAUT01 Utility Tray and BVATH01 Telephone holder.  
LP chassis (specify LP finish); 1" top (specify LP or HP finish), satin lock.

**Panel supporting laterals**

- Provide storage and panel support. Full access to Boulevard System 3 bottom raceway cover and power/data outlets. Feet support the front of the unit while a set of brackets (included) secures the unit to Boulevard panels.
- Panel mounting brackets leave 1" deep space between the storage and the panel allowing for easy cable passage behind the storage. Note: that the brackets bring the total depth to 19" (18" deep storage units) from the panel and 24" (23" deep storage units).
- Optional Cable Basket suspends off storage unit's bottom and manages cables along the horizontal plane.
- LP chassis (specify LP finish); 1" top (specify LP or HP finish); metal handles; powder coated aluminum or anodized aluminum legs (specify finish).

**BRTPSLS • Panel Supporting Lateral Sliding Door**

- Fits below Bridges tables, can join with other 21" high, 18" and 23" deep storage units along the panel. Can serve as an additional worksurface or an ad-hoc guest seating with optional cushion.
- Storage compartment internal height: 12.36".
- Sliding door locks on left side.
- Anodized aluminum leg upcharge \$55.

## Bridges Collaborative Seating

Bridges collaborative seating collection consists of seating, privacy screens, tables, tablets and power. It is a versatile modular furniture series which can be configured into many space planning scenarios including corner, in-line, open concept, traditional reception as well as secluded seating with high privacy partitions.

Furniture pieces can be used as stand alone items or can be mechanically linked together to form a variety of seating configurations.

Seat and backrest can be integrated with Bridges tables, as well as Boulevard panels.

Corner tables and in-line 6" table modules double as power delivery centers.

Dedicated seat backrests feature dual USB charging port.

Some Inline 6" table modules are furnished with grommets to support tablets.

Legs are available in standard Bridges metal painted finishes and anodized aluminum finish.

**Bridges Collaborative Seating upholstery** features a single stitch, thick white thread around the edges. The white, wide stitch along with crisp corners are part of its distinctive personality. In order to achieve crisp edges and to minimize "pillow" effect caused by taut fabric, the upholstery material has been applied deliberately loose, which may, over time, produce puckering of the upholstery surface material. This can be easily corrected by stretching the fabric by hand or during vacuuming.

In order to efficiently utilize fabric yield all 60" seats and backs feature a seam in the middle. The double stitch seam is sewn with a thin thread, closely matching the upholstery material in colour.

Some complicated fabric patterns prevent pattern matching and will be upholstered without the seam at the discretion of the factory.

Should you require no middle seam by cutting into the roll, please specify "NO SEAM" at time of your order.

• COM yardage is an estimate only. More accurate yardage will be dependent on the width of the fabric and on the repeat pattern.

**BRTST24-F • Low Table**

- **Freestanding 17" high tables.**
- Central partition divides space under top surface into two 11" deep compartments. All LP chassis w/ HP or LP top (3mm edging). Bridges storage aluminum leg.
- Specify chassis and top finish, specify metal leg finish. Add \$55 for anodized aluminum leg finish.
- To convert to mobile, please add \$36 list and an "M" at the end of the product code.

## BRTS-Bx • Inline 6" Block

- Multifunctional In-line 6" table block divides seating areas, serves as a utility surface, can support tablet arms, lamps and double as a power delivery centre.
- It is permanently secured between two Bridges seats and cannot be placed at the end of a run. Two Square Table Block Ganging Brackets BRTSTBG connect seat legs permanently to the side of the in-line table block on site. The included kit employs machine screws connecting legs to seats and ships with wood screws which provide permanent connection the the Inline 6" Block. Black powder coat finish.
- The chassis is available without Power Module, with one Power Module or with two vertically embedded Power Modules.
- Vertical-panel flush-mounted Duo module provides two outlets and two 2.1 amp USB ports; 72" cord exits through the bottom and plugs into a floor monument under seats, white face plate and bezel.
- BRTS2406BT and BRTS2406BPT include 9.5" x 14.5" swivel tablet.
- Specify LP laminate chassis, 1" LP or HP laminate surface. If top is specified in LP the tablet will be manufactured in LP as well. If top is specified in HP the tablet will be manufactured in HP.
- 2 Square Table Ganging Bracket Kits included.

- Box drawers mounted on full extension premium ball bearing slides
- File drawers mounted on premium full extension progressive ball bearing slides
- File drawers accommodate letter and/or legal hanging files (see file drawer capacity page G.2)
- Locks are standard on all units. Available in black or silver finish
- All lateral files feature a drawer interlocking mechanism
- Desk drawers open with pulls as standard
- Drawer bottoms are routed into the drawer sides
- Drawer fronts are edged on all four sides with matching 3mm edge
- All drawers locking as standard
- Key alike available
- Pedestals available in 15-1/2" width and 18, 20, 23, 24, 29, 30, 36 depth, include one pencil tray
- All mobile pedestals have option for a counterweight
- Storage modules feature levellers 5/16" x 1" easily accessible from outside the unit. All others feature 5/16" x 2" levellers.
- Monopost legs available in 3 different options, 2.5" or 3" square, 3" round and 6" round
- 6 handle options
- Storage modules available in 4 heights 29", 50", 65.8", 72.8"
- Lateral modules available in 3 widths 30", 36", 42"
- Rectangular grommets are standard and can be specified in a variety of locations as standard (see Grommet Location page A.10)
- Several Power Grommets style and configurations available.
- Drawers/Door fronts are available in a different finish than that of the chassis. Please specify option. Note that the kick plate will match the drawer front finish unless otherwise noted.

## FREESTANDING - TECHNICAL INFORMATION

### Worksurfaces

- Worksurfaces are offered in LP (1"), B (1 1/16") or W (1 7/16").
- All worksurfaces are drilled to accept connectors in a desk configuration.
- Worksurfaces are available in the following shapes: rectangular, bow, wedge and swerve.

### Worksurface Edge trim

- Available in 1 1/16" ("B" thickness), 1 7/16" ("W" thickness) or 1" ("LP" thickness).
- Wood grain PVC edge trim, available in Boulevard (S) edge "B" and "W" thickness only.

### Edge Options

	Boulevard (S) Edge	
"LP"		1"
Thickness		
HP "B"		1 1/16"
Thickness		
HP "W"		1 7/16"
Thickness		

### Hardware

All attachment hardware is included.

### Modesty Panels

- Available in full panel 27 5/8" high or half panel ("H" option) 10" high.
- Modesty panels are flush mounted with 24", 30" and 36" deep end gables.
- Modesty panels are available recessed for 30" and 36" deep end gables.
- All recessed modesty panels are inset 6" from the edge.
- Only flush modesty panels are used for extended shell and bridge.
- Only full modesty panels are used for "L2D" desks: Rectangular, Bow, and Wedge worksurfaces.
- All exposed edges are edge banded.

### Panel and Gables

- The term "end gable" or "narrow gable" is used to configure a shell, single pedestal or return.
- The term "end panel" or "narrow panel" is used to configure a table desk with shaped worksurfaces such as "D", "P", or profiles.
- All end gables are interchangeable for left or right hand use.

- End gables 24", 30" and 36" deep are drilled to accept full or half modesty panels that are flush mounted.
- End gables 30" and 36" are used for full or half modesty panels that are recessed.
- All panels and end gables are 1" thick and 27 5/8" high.
- All panels and end gables are finished in low pressure laminate.
- End gables are used in shells and single pedestal desks.
- Narrow end gables are used in shells, single pedestal desks, "T", or "L" bases.
- Narrow panels are routed to accept modular connectors for "T" or "L" applications.
- All panels and gables are predrilled to accept levelers at the bottom and connectors at the top.
- All panels or gables are 3mm edge banded at the exposed edge.
- All narrow gables are routed at the top to allow cables to pass through and come with a connecting flat bracket.
- All bottom edges are edge banded.

### Handles

- Handles are offered in 4 styles.
- Options are as follows:
  - BB = Bow Matte Black
  - BC = Bow Matte Chrome
  - UB = "U"Dull Black
  - UC = "U"Dull Chrome
  - FA = Flat Aluminum
  - RN = Round Nickel

- Span dimension between drilling locations is 192mm.
- e-lock

## GROMMET LOCATION

### Notes

- All worksurfaces are standard with rectangular grommets # BG5.
- Worksurfaces 54" wide and under are standard with 1 grommet.
- Worksurfaces over 54" wide are standard with 2 grommets.
- Grommet location must be specified at time of order or it will default to "no grommet" option.

**GROMMET LOCATION**

**"P" Shaped Tables "L2T"**

**Extended "D" - L2TED**

**"D" Shaped Tables**

**Extended Corner "L2EC"**

**Extended "D" Cut Out "L2TEDCO"**

## GROMMET LOCATION

### Hockey Shaped Tables "L2TH"

### Floating Tops "L2F"

### Runoff Tops "L2TC"

### Floating Tops "L2FFL"

### Licence 2 Top with Two "O" Legs "L2TDOL"

**Technical Information**

**Double Pedestal Desk/ Single Pedestal Desk**

- All desks are Shipped knocked down (KD).
- Pedestals are shipped assembled
- Pedestals are LP all over
- Non Interlocking mechanism Pedestals
- Half modesty available on all Double Pedestal Desks, specify 'H' Before size eg. L2DRH3060FB
- Half modesty available on Single Pedestal Desks, specify "H" before size eg. L2DRH-3060BR
- All desks have modesty recessed 6"

**Executive Return Desk**

- All desks are Shipped knocked down (KD).
- This typed of desk must be connected at open end to adjoining worksurface with flat brackets.
- Half modesty available on all Single Pedestal Returns, specify "H" before size eg. L2RH2036FL

**Single Pedestal Returns**

- All desks are Shipped knocked down (KD).
- This type of desk must be connected at open end to adjoining worksurface with flat brackets.

**DESKS • GUIDELINES FOR ORDERING PRODUCT**

**CODES:** The price list uses a numbering system with meaningful alphanumeric characters to create a simple-to-understand product number. This makes specifying the product much easier and more accurate.

**SPECIFICATION EXAMPLE OF A DESK UNIT**

**PRODUCT CODE:** L2DR3060FB  
 L2 = New Licence  
 D = Desk  
 R = Rectangular  
 3060 = Size: Depth x Width  
 FB = PED FF LEFT / PED BBF RIGHT

**OPTIONS:**  
 Top: LP - LP (Low Pressure Laminate) Thickness 1"  
 HP B - B Thickness 1 1/16"  
 HP W - W Thickness 1 7/16"

## Technical Information

### Technical Information

Reception Desk:

- All desks are shipped KD.
- Centre desk reception transaction top is available in "LP", "B" or "W" thickness to match the thickness and profile of worksurface edge.
- All other exposed edges are banded with 3mm PVC.
- Center unit is freestanding and can be connected on one or both sides with a return or bridge.
- **Bridge unit is connected to the centre unit to extend the return on either side. This unit must be connected on both ends and nonhanded.**
- Left or right hand unit is designed to extend the centre unit. This unit must be connected on one end.
- **Can be used as a freestanding unit or connected with surrounding bridge or corner surround.**
- **Comes with transaction top.**

## DESKS • GUIDELINES FOR ORDERING PRODUCT

**CODES:** The price list uses a numbering system with meaningful alphanumeric characters to create a simple-to-understand product number. This makes specifying the product much easier and more accurate.

### SPECIFICATION EXAMPLE OF A GALLERY RECEPTION DESK UNIT

**PRODUCT CODE:** L2GR66  
 L2 = New Licence  
 G = Gallery  
 R = Reception  
 66 = Size: Width

**OPTIONS:**  
 Top: LP - LP (Low Pressure Laminate) Thickness 1"  
 HP B - B Thickness 1 1/16"  
 HP W - W Thickness 1 7/16"

Top Finish Laminate: Choose Colour

Top PVC Edging: Choose Colour

Chassis Laminate: Choose Colour

Chassis PVC Edging: Choose Colour

**L2GR • Gallery Reception Desk**

- Two grommets installed TL/TR.

**Technical Information**

- All Desks and connecting shells are Shipped knocked down (KD).
- All connecting units must be connected to an adjoining worksurface where there is either no end gable or a narrow gable with flat brackets.
- Gables & partial gables are interchangeable.
- All bottom edges are edge banded.
- Each shell allows for grommet (BG5) to be specified at no upcharge. Please see general information (Section A) for location.

## Technical Information

- All Shaped tables are Shipped knocked down (KD).
- Monoleg or square leg ships in a separate box.
- All Units must be connected to an adjoining unit with flat brackets.
- For 24" deep returns that connect to an adjoining unit with included flat brackets.
- For 24" deep returns that connect to the corner units, the narrow panel is 10" and for 30" deep returns, the narrow panel is 14".
- All bottom edges are edge banded.
- Monolegs are drilled to accept shoulder screws to attach to the modesty.
- Modesty are offered 10" high only.
- Top plate with cut-out for 3" monoleg will accept modesty panel 1" thick.
- 8 x 8" plate is attached to surface with #10 3/4 wood screws, included.
- 1" height adjustment range.

## TABLES • GUIDELINES FOR ORDERING PRODUCT

**CODES:** The price list uses a numbering system with meaningful alphanumeric characters to create a simple-to-understand product number. This makes specifying the product much easier and more accurate.

### SPECIFICATION EXAMPLE OF A SHAPED TABLE

**PRODUCT CODE:** L2TDH3060  
 L2 = New Licence  
 T = Table  
 D = D Shape Worksurface  
 H = Half Modesty (10"High)  
 3060 = Size: Depth x Width

**OPTIONS:**  
 Top: LP - LPL (Low Pressure Laminate) Thickness 1"  
 HP B - B Thickness 1 1/16"  
 HP W - W Thickness 1 7/16"

Leg Option: L2BHML03 (DEFAULT) Round Monoleg  
 L2LSQ3X3 - Square Leg

## General Notes

### Pedestals

**Pedestals are shipped assembled.**

- Pedestals are offered in three types of applications: Worksurface Supporting, Freestanding, and Mobile.
- Pedestal front width is 15-1/2" with a deep size variation 18" 23" 24" 29" 30" 36"
- If specifying a pedestal for a desk or credenza, please ensure you specify next depth lower ie. 23" deep pedestal for a 24" deep credenza or desk.
- Worksurface supporting Pedestals are 28"high
- Freestanding pedestals come with the choice of "LP", "B" for 29"high or "W" thickness top for 29.5"high
- Pedestals Freestanding are on adjustable levelers
- Mobile pedestals come with a top with the choice of "LP", "B" for 29"high or "W" thickness top for 29.5"high and have front locking casters to support the pedestal.
- Pencil tray included in the top box drawer of each pedestal.
- Box drawers mounted on full extension ball bearing slides
- File drawers mounted on full extension ball bearing slides
- All file drawers come with adjustable rails for legal or letter size hanging folders. See File Drawer Capacity chart page G2.
- Pull out shelf for CPU and printer units can support 75 lbs. per shelf and has telescopic extension.
- CPU and printer units have ventilation grommet on back panel.
- Interior clearance of printer shelf is 11".
- Printer pedestals have 2 pull out shelves and the back panel has four round grommets.
- CPU pedestals have 1 pull out shelf and the back panel has two round grommets.
- Both CPU and printer units must be installed under a worksurface to prevent tipping.
- All pedestals with a door, include 1 adjustable shelf.
- Cases and fronts are finished in low pressure laminate.
- Specify thickness of the top to match the thickness of the worksurface.
- Locks are standard on all units. Available in black or silver finish. The lock will match the handle finish.

### Hutches and Overheads

**Hutches and overheads are shipped assembled.**

- Hutches and overheads are offered in "LP" and "W" thickness with three option heights. See Storage Technical Info page G3.
- Specify thickness of hutch or overhead top to match the thickness of the worksurface.
- Cases and fronts are finished in low pressure laminate.
- Hutches and overheads with hinged doors (laminate or aluminum), flip up fronts have no handle option.
- Hutches with pigeon holes come with touch latch mechanism.
- Hutches and overheads with sliding laminate doors have standard handle options
- Hutches and overheads with sliding glass doors are offered with recessed handle only. The recessed handle is in chrome finish
- Hutches and wall mounted overheads are offered in 4 styles: Open storage, Hinged doors - laminate or anodized aluminum frame doors with the option for glazing: frosted or clear, sliding doors are laminate or glass doors and flip-up doors.
- Once installed, the bottom of the flip-up door overhead will not line up with the bottom of the open or hinged door overhead.
- Wall mounted storage cabinets must be securely attached to wall studs.
- Panel mounted overheads include attachment brackets for Boulevard panels.
- Back panels on hutches comes with a center round grommet for wire access.
- Top on hutch and overhead storage cabinets with flip-up doors is 3/4" thick Low Pressure Laminate. Doors slides on top of the unit.
- Inside dimension for hutches and wall mounted units with flip-up doors is 13 1/4" high x 14 1/2" deep
- Inside dimension for hutches and wall mounted with hinged doors is 12 3/4" high x 15 1/4" deep
- Inside dimension for open hutches and wall mounted is 12 3/4" high x 15 1/4" deep
- Inside dimension for hutches and wall mounted with sliding doors is 12-3/4"high x 13" deep
- Use double sided tape to attach hutches to worksurface.
- Locks are standard on all units. Available in black or silver finish. The lock will match the handle finish.
- Recommended to be installed against and fixed to a wall using appropriate hardware (not included).

### Credenzas

**Credenzas are shipped assembled.**

- Credenza model # L2CR2H2H or L2CR1H1H must be ordered with counterweights to avoid tipping.
- Credenza come with the choice of "LP", "B" or "W" thickness top
- Credenzas are offered with the choice of "LP", "B" for 20"h. or 29"high and "W" thickness top for 20.5"h or 29.5"high
- Credenza come with hinged doors, laminate or anodized aluminum frame doors with the option for glazing: frosted or clear
- Locks are standard on all units. Available in black or silver finish. The lock will match the handle finish.

### Bookcases

**Bookcases are Shipped knocked down (KD).**

- Available in 30" or 36" widths and 12.685" and 16.685"depths dimension at base-board with range in height from 29" to 72" with 12" clearance between shelves.
- Bottom shelf is fixed and all other shelves are adjustable.
- Specify thickness of the top to match the thickness and profile of the worksurface.
- Tops are offered "LP" or "B" or "W".
- Up to 42"h, Bookcases are offered in "LP", "B", "W".
- 54"h. and up are offered in "LP" and "W".
- Recommended to be installed against and fixed to a wall using appropriate hardware (not included).

### Laterals

**Laterals are shipped assembled.**

- Laterals are available in three widths, 30" 36", 42" with a height variation of 28" to 54" and a depth of 20" and 24".
- Tops are offered LP, B or W
- Worksurface supporting units do not come with a top.
- Up to 42"h, laterals are offered in "LP", "B", "W".
- 54"h and up are offered in "LP" and "W".
- Cases and fronts are finished in low pressure laminate.
- Laterals with hinged doors, laminate or anodized aluminum frame doors with the option for glazing: frosted or clear
- Lateral files are offered in 2 types of applications: Worksurface Supporting and Freestanding.
- All lateral files feature a drawer interlocking mechanism
- Up to 42"h, Laterals are offered in "LP", "B", "W".
- 54"h, and up are offered in "LP" and "W".
- All file drawer come with adjustable rails for legal or letter size hanging folders.
- Counterweights must be specified in a lateral configurations except worksurface supporting.
- "C" combo lateral have a pencil drawer included in the box drawer. The penciltray is parallel with the depth of the drawer.
- In "C" combo lateral, only one side can be locked.
- All laterals with a door, include 1 adjustable shelf.
- File drawers mounted on full extension ball bearing slides
- Locks are standard on all units. Available in black or silver finish. The lock will match the handle finish.

### Towers and cabinets

**Towers and cabinets are shipped assembled.**

- Towers offered 24"w and cabinets 30"w and 36"w are offered in "LP" and "W".
- Cases are finished in low pressure laminate.
- Towers or cabinets are offered with hinged doors, laminate or anodized aluminum frame with the option for glazing: frosted or clear
- Towers or cabinets with anodized aluminum doors are offered without handles. Touch latch mechanism is included.
- Storage tower with the cupboard above FF or BBF and wardrobe will lock only the wardrobe and drawers.
- Storage tower with the wardrobe include a coat rod.
- Locks are standard on all units. Available in black or silver finish. The lock will match the handle finish.
- Counterweights must be specified for units 20" deep by 60" to 72" high with 2H2D or 2H/Open, please order 2 x LACWB for each unit.

## LATERAL FILE DRAWERS

**BHV • Component Wall Adapter - Single and Double**

- Used to attach system components to fixed wall.
- Panel frame finish.
- The vertical wall adapter is a "U" shaped channel with a vertical row of slots with 1" centers.
- The double Component Wall Adapter has a double row of slots with 1" centers.
- Comes in 60" length only.
- Care should be taken to mount adapters only to wall studs using correct fasteners.
- Does not include mounting hardware. Mounting hardware selection to be based on wall material.
- Failure to do this may result in collapse of the unit and subsequent possible personal injury.
- Sold in pairs.

**L2PO • Pantry Storage**

Left Hand Shown

- The pull out cabinet serves as a multifunction, customizable storage unit that both defines space and enhances privacy in an open plan environment.
- Can be used in conjunction with Licence, Bridges, FreeFit and Boulevard.
- Internal organization consists of two fixed shelves top and bottom. The two middle shelves are adjustable. Two accessory rails are standard and will accept GC metal accessories
- Interior cabinet shelves and back are standard in Designer White. Cabinet shell, drawer and top can be specified in any standard laminate.
- L2PO-NL/R does not fit binders.
- Only available with FA handle.

**Finish**

While the Pantry Storage cabinet walls, top and pull-out drawer front door and back panel finish can be specified, The internal cabinet back and adjustable shelves are standard white. Please specify the cabinet top and pull-out drawer front finish.

**Options**

- Dual USB outlet kit - please add "USB" at the end of the code. Add \$377 to the list price
- When you specify dual USB outlet the top shelf will come with grey felt surface and grommet which allows for cable passage from the USB outlet (located below the top shelf). A two-prong power cord exits the cabinet through the floor at the back.
- Dry-erase marker board - Choose "DE" option. Please add \$266 to the list price. If specified the Dry-erase marker laminate will be applied to the external surface of the pull-out drawer side wall.
