COMPRISE

model C4020HA

model C4150LN
with 10" center table

STANDARD FEATURES

- Comprise offers a refined, modern aesthetic with versatile guest seating available in freestanding and modular configurations. Built for durability with nylon legs and a robust metal structure, fully field replaceable and reconfigurable. Engineered for demanding healthcare and high traffic environments.
- Modular models are based on seat rail sizes, which determine the number of tops (seat and back, bench seat and/or table top they support). Each rail set requires end or center connecting legs (with or without arms). Center legs join additional rails and connecting tables, supporting modular layouts and reconfiguration.
- Modular components provide all the elements needed to build continuous runs of seats, benches and connecting tables within the series parameters.
- Freestanding models include one, two and three seat chairs and benches, combination seats with 10" table tops, bariatric chairs and benches, as well as freestanding tables.
- Standard with color matching nylon glides (**ST**), suitable for most surfaces.
- Tables tops are standard in thermally fused laminate (**TFL**).
- Active weight capacity is 400 lbs. for standard models and 600 lbs. for bariatric models.
- Available with contrasting fabrics. Specify seats separate from backs. Use the Build-It tool for pricing. *Note: the two grade combination chart is not applicable for this series.*
- For healthcare textiles, visit the website at globalfurnituregroup.com.
- Textiles with a minimum of 100,000 double rubs must be specified to meet Global 24/7 warranty coverage.
- Can be upholstered in standard Global textiles if healthcare compliance is not required.
- Freestanding models are shipped fully assembled. Modular components are shipped separately for field installation.

OPTIONAL FEATURES

- Glass filled nylon, easy to grip loop arms and legs available in five finishes (painted metal rails match arm and leg finish).
- An optional painted metal shroud is available to cover the rails (between the seats on armless, two and three seat configurations only). The shroud provides a single, cleanable surface across the rails. Specify (**ARS**), see upcharges. *Note: armless shroud can be field installed on existing layouts, specify model C4PRSN.*
- For greater security, tamperproof fasteners (**TP**) are optional on all models. See models for upcharges.
- Color matching wall saver feet (**WS**) that prevent back contact with wall are available on freestanding and modular models (except freestanding tables). See models for upcharges. For no wall saver specify (**NWS**). *Note: feet add 1.3" depth on medium back models, 0.88" on high back models and 3.74" on ganging tables.*
- Black floor mount (**FM**) glides are optional. See upcharges.
- Non-marking natural nylon glides (**NM**) also available.
- Table tops are also available in high pressure laminate (**HPL**) or solid surface (**CO**). See upcharges.
- Power and USB charging units are specified separately for field installation and include a tamper resistant AC outlet, plus USB-A and USB-C ports. Available in Black (**B**) or White (**W**) with 10' cord. Choose undermount or clamp mount for tables and tabletops. Connecting and end table are predrilled for undermount attachment.

Infection control and cleanability

- Features a clean out around all sides of seats for easy cleaning.
- Surfaces are easy to clean. With only two materials used, fewer cleaning products are required.
- Chair backs are upholstered molded foam and have replaceable upholstery covers with zippered tabs removed. For waterproof zipper, see sealed seams options.
- Seats have a seamless waterfall front edge made with a highly durable high density molded foam. Underside of seat is standard with a coated lining (**CL**). For added security and infection prevention, specify sealed lining (**SU**), see upcharges. This option seals the staple strip making it tamper resistant and leak proof.
- For use with approved coated textiles (i.e. vinyl, silicone, polyurethane). Optional sealed seams are available to mitigate liquid penetration at seams, specify (**SWZ**) for back sealed seams with waterproof zipper. Specify (**SE**) for seat sealed seams. See models for upcharges. *Note: minor puckering is common with the addition of sealed seams due to material buildup at corners.*

- For moisture barrier on seat, specify (**MB**). See upcharges. *Note: moisture barrier is only available on woven textiles that do not have a moisture resistant coating or backing. It is not recommended for water resistant textiles and may not be used in conjunction with sealed seams.*

Notes: Please specify all substitutions and options.

- Comprise table legs complement the design lines to work seamlessly with Comprise seating.
- Glass filled nylon legs, available in five finishes (painted metal rails match leg finish).
- Standard with color matching nylon glides (**ST**), suitable for most surfaces.
- Black floor mount (**FM**) glides are optional. See upcharges.
- Non-marking natural nylon glides (**NM**) also available.
- 1" thick table tops are standard in thermally fused laminate (**TFL**) and are also available in high pressure laminate (HPL) or solid surface (**CO**). See upcharges.
- Laminate table tops include color coordinating 2 mm PVC edgeband.
- All connections are metal-to-metal inserts and fasteners.
- Tamperproof fasteners (**TP**) are optional on all models. See upcharges.
- Shipped fully assembled.
- Power and USB charging units are specified separately for field installation and include a tamper resistant AC outlet, plus USB-A and USB-C ports. Available in Black (**B**) or White (**W**) with 10' cord. Choose undermount or clamp mount for tables and table tops. Connecting and end tables are predrilled for undermount attachment.
