We often modify our products when special requirements dictate the need, in order to provide the best possible solution for an application.

We value our clients and strive to build lifelong partnerships through trust, respect and successful outcomes.

SYMBOL IDENTIFICATION

Global's certified products are in compliance with the stringent emission guidelines set by the Greenguard Environmental Institute and include all upholstered seating.

To obtain a Greenguard certificate for any product, please go to the product page on our website www.globalfurnituregroup.com and click on "view Greenguard certificate".

level™ certification, based on the ANSI/BIFMA e3-2012 furniture sustainability standard, sets furniture manufacturers on a path toward greater sustainability over time. Based on environmental and social criteria set forth in the standard, a product's entire supply chain is assessed.

Certification assessment includes an evaluation of specific corporate policies and guidelines and an assessment of associated company manufacturing facilities. Products must meet quantifiable milestones of environmental and social performance at every step of development.

The quantitative assessment addresses four categories: material use, energy and atmosphere impacts, human and ecosystem health and social responsibility. Manufacturers earn points in each of the four categories. The level™ brand and its numeric rating of 1, 2 or 3 indicate what threshold of certification a product has achieved. Level™ 3 is the highest rating.

GLOBAL HEALTHCARE DEFINITIONS

Global Healthcare often requires solutions to address unique and diverse requirements within the vast range of healthcare applications. The following definitions describe the Global healthcare product solutions available.

ADDITIONAL WEIGHT

For unique and demanding challenges in behavioral health facilities, products are weighted to reduce the ease of movement or lifting product to use as a weapon. The product selection and application identified will assist in determining the amount of additional weight required. Weighted product is designed for facilities looking to create safe and secure environments, while ensuring the furniture can withstand intensive use. To determine the amount of additional weight to be added to a product, contact your Global representative.

BED BUG RESISTANT

Due to an increase in the presence of bed bugs within healthcare facilities, solutions have been developed to deal with the bed bug issue. The product design directly affects the level of resistance that can be achieved. For more detailed information, contact your Global representative.

CONTRABAND RESISTANT

Making a product contraband resistant is a potential solution if you want upholstered and comfortable products to be finished in a manner that offers a greater level of safety. Contraband resistant finishing is added to products in high risk areas where individuals might attempt to hide contraband such as weapons (for self-harm or to cause harm to others), drugs or alcohol. It can also be part of a solution for protecting any area of the product from becoming a ligature point.

The product surfaces and upholstery will be evaluated and the appropriate solutions will be applied to ensure all surfaces are sealed and safely protected. Depending on the product design, this could mean any combination of the following applications: sealed seams, sealed underside, tamperproof fasteners and/or sealed zippers. After being evaluated, solutions are applied based on the application and population being served. The result of this process would enable the caregiver to identify a potential threat as it would be apparent that the product surface was tampered with. To further assist product selection and what is required specific to a product, please contact your Global representative.

HIGH DENSITY ULTRACELL FOAM

High density Ultracell foam is a non-allergenic foam manufactured from natural seed-based oils such as soybean. It significantly decreases the dependence on fossil fuels like petroleum and reduces greenhouse gas emissions. The high density of the foam provides comfortable sitting for many years before any sagging or indents appear underneath upholstery. Simply, there is more material available to allow for enhanced performance.

MENTAL HEALTH FURNITURE

Mental health furniture can range from simple to complex, depending on the application and population. Global understands the unique nature and the need to offer a vast range of solutions to deal with the safety of staff and patients while respecting budgets and individual needs. This allows the client to select a product from our complete offering and then build it up to ensure the right features are included. Here are some of the optional features available: tamperproof fasteners, additional weight, floor mount brackets, puncture resistant textile and other contraband resistant features that are needed for the application. Whatever the demand, the correct solution can be built-in. For more detailed information, contact your Global representative.

MOISTURE BARRIER

Moisture barrier is a textile lining with moisture repellent qualities. Moisture barrier lining is applied on the seat cushion between the upholstery cover and foam to prevent any form of moisture from getting to the foam. It is recommended when the fabric being used does not have moisture repellent qualities or when additional protection from penetration of moisture is desired. For coated textiles, the additional moisture barrier option may not be selected in conjunction with sealed seams.

MOISTURE AND TAMPER RESISTANT ZIPPER

Moisture and tamper resistant zippers are available as part of the solution when requesting bed bug resistant furniture and contraband resistant solutions. In addition, this special zipper prevents liquid and moisture seepage through the zipper teeth, providing additional peace of mind. For more detailed information based on the product selection, contact your Global representative.

SEALED UNDERSIDE

Sealed underside refers to the process of finishing the underside of a product to ensure no potential openings from the textile surface to the product interior on seat and/or back seams. The sealed underside solution is requested for achieving higher levels of infection prevention control for the product being ordered. The sealed underside option is noted in the price list notes with the upcharge for the respective product. For more detailed information and to determine if the sealed underside process is available on a particular product selection where it is not noted, contact your Global representative.

SEALED SEAMS

The heat-sealed seams process involves sealing the back of a seam with a specially designed tape. Sealing the seam increases the integrity of the seam reducing the likelihood of seams opening over time. This tape provides additional protection against moisture seepage and prevents insects from entering the product through the stitch holes and seams. The sealed seam process is available for use on most coated textiles and is not available on woven textiles. Some coated textiles do not allow sealed seams to be used. In the event sealed seams are to be used, contact Customer Care to confirm sealed seams are approved for the coated textile selected in advance of order placement. Sealed seams cannot be specified if using the moisture barrier lining. The sealing of seams requires testing the textile to ensure acceptance of the heat-sealed tape for performance and aesthetics. For detailed instructions on textile testing and approval, contact your Global representative.

TAMPERPROOF

Tamperproof fasteners can be requested for a higher level of safety. Using tamperproof fasteners ensures the fasteners cannot be interfered with (changed, opened or removed) without use of a special tool. This will prevent the tampering with, or disassembly of the product which could lead to injuries or unsuspecting harm to others. For more detailed information contact your Global representative.

- For added comfort, seats are standard with high density Ultracell foam.
- Metal frame is available in several paint finishes.
- The arm structure finish is Tungsten with a urethane armcap, available in five finishes.

Blended Seating Textiles

The grid below outlines the grade structure for using multiple textiles on select seating series. Blended textiles occur when one textile is chosen for one part of the chair and a different textile is selected for another part of the chair, resulting in a revised “blended grade”.

NOT FOR USE with Calidon, Collingwood, Erin, Nourish, or Oakville. See series price list pages for pricing.

For specification and pricing for more than two different textiles, please contact Global Customer Care for approval and pricing.

TERMS AND CONDITIONS

Global is focused on providing furniture products for use in healthcare environments. This illustrated price list book has been designed to facilitate fast reference and easy use. Products are categorized into "personal room furniture", "tables" or "seating" and are listed numerically within their categories. The line drawings match actual photographs (where possible) to aid in instant recognition of the total range within a series.

Sales of healthcare products are made only on Global's standard Terms and Conditions of sale which are contained in this price book. The "Purchaser" in these Terms, Conditions and General Information shall refer to dealers and those who originally purchase directly from Global for use or resale. These standard terms and conditions may be modified or supplemented only by a separately written document signed by Global's authorized personnel at its head office in Marlton, NJ. Any term or condition contained in any purchase order or other form used by the Purchaser to order goods (including standard, printed language) which is different from, in addition to, or in any way inconsistent with Global's standard terms and conditions shall be of no force or effect whatsoever.

All illustrations, specifications and prices in this list price book are based on the latest product information available at the time of publication. Global reserves the right to make changes, at any time and without prior notice to prices, colors, materials, specifications and models offered.

DESCRIPTION

Each product shown or described in this price list is standard healthcare product. Available options are noted at the beginning of each series. Available options may require additional delivery time and cost, and may affect the warranty given. Sizes and weights shown are approximate and are subject to slight changes from time to time.

PRICES AND PAYMENT

The prices shown in this book, as well as those quoted by Global, are in United States dollars for orders shipped to destinations in the U.S., Mexico and Puerto Rico.

If shipping date requested is more than 90 days from date of order, Global shall reserve the right to use published list prices effective at the time of shipment.

Orders are invoiced at the time of shipment. **Terms of payment are net 30 days from date of invoice (1% 15 days) unless otherwise stated.** The Purchaser agrees that Global shall reserve the right to enforce a charge amounting to 1.5% per month (18% per year) on invoices outstanding more than 30 days.

If the Purchaser's most recent annual net volume is less than \$5,000, payment must be made in advance.

All orders are subject to the Purchaser complying with Global's prevailing credit policy.

Any products sold by Global shall remain the property of Global until fully paid.

Prices are suggested list prices only and are subject to change without notice. Global will, however, attempt to keep the Purchaser up-to-date on all developments including price changes.

TAXES

All prices shown in this list price book are exclusive of sales, use, excise and other applicable taxes and are the Purchaser's responsibility as per the invoice issued by Global. If the Purchaser claims an exemption from such taxes, it shall be the Purchaser's responsibility to furnish Global with an appropriate exemption certificate at time of order.

ORDERING INFORMATION

Global requires that all orders be submitted in writing and will be acknowledged on Global's acknowledgment forms governing the transaction.

The details appearing on this acknowledgement will describe the items to be shipped and the approximate shipping date. It is the Purchaser's responsibility to determine that the information in the acknowledgment is correct. In the event of an error, the Purchaser must notify Global immediately by telephone followed by written confirmation. Shipping dates are assigned to orders based on the item having the longest manufacturing lead time (unless instructed to partial ship).

At the time of order, please provide the following information:

1. Account number (if possible)
2. PO number
3. "Bill to" and/or "Ship to" name and address
4. Complete model number and selected options, including textiles/finishes
5. Special instructions and tag information
6. Shipping instructions
7. Special quote (SQ) # or MTM # (if applicable)
8. Customer's Own Material (COM), Global Purchased Material (GPM), Customer's Own Leather (COL), see below.
9. For specials and custom quoted product, please indicate the custom quote # on your PO. If changes are made to the quote, a new quote must be issued prior to submitting the order. It is the Purchaser's responsibility to determine that the information on the quote is correct. Global will not be responsible for wrong product due to errors in the quote.

The above points will be checked by Global for accuracy. Global will process orders using the codes provided by the Purchaser. Price discrepancy is the responsibility of the Purchaser. The Purchaser must notify Global prior to invoicing.

The Purchaser is responsible for providing correct information when placing an order. Orders with incorrect information (finish, etc.) will be scheduled for manufacturing upon receipt of complete information.

To prevent a delay in processing orders, please specify delivery routing.

CHANGES AND CANCELLATIONS

After the date of Global's acknowledgment of a Purchaser's order, the order may not be changed or canceled by Purchaser without the written consent of Global. Special order items, C.O.M. and fabric-covered items already in production are not subject to change or cancellation under any circumstances. Fabric-covered items are considered to be in production once the fabric is scheduled for cutting.

ERRORS AND OMISSIONS

All quotations, acknowledgements and invoices are subject to corrections for any errors and omissions.

FINISHES

Seating Finishes - Painted

Where painted frames are not a standard color, there is a one time charge of \$613 list price per order for custom wood staining/color matching. Restrictions may apply. The customer must provide a 3"x3" color chip/sample for review and approval. Non-standard finishes must be approved by Global prior to acceptance of order.

Seating Finishes - Wood Stained

Because the distinctive characteristics and the nature of wood products cause variations, exact matches are not always possible.

HEALTHCARE

Global coordinates its finishes program between marketing divisions within the Global Group to match products as best as possible when same finishes are specified. However, Global will not be held responsible if the finishes cannot be matched.

Customers Own Material (COM)

Use of COM must be approved by Global prior to acceptance of order. Please submit the Authorization Request Form. Photocopy and use this form as often as necessary. The customer must provide a 12" x 12" fabric sample and advise how the fabric is to be applied and quantity of fabric being sent. **Textile yardage requirement will be advised by factory, and additional yardage may be required if pattern requires matching.** Upon approval from Global, send textile to your Customer Care Representative. If COM is difficult to apply or if product is required to be modified, extra charges will apply. Global reserves the right to cancel an order at any time if COM is inadequate for any reason. COM must be shipped freight and duties paid (if applicable) to our factory. Such shipment must be fully identified with the Purchaser's order number, RGA # provided by Global, and the item for which material is intended. Performance of COM when applied to product is the sole responsibility of the Purchaser. Global's standard product warranty shall not apply to COM. Use of COM will not reduce the published list price.

C.S.M. (Customer Specified Material)

Use of Customer Specified Material must be approved by Global prior to acceptance of order. If C.S.M. is difficult to apply or if product is required to be modified, extra charges shall apply. Global reserves the right to cancel an order at any time if C.S.M. is inadequate for any reason. Performance of C.S.M. when applied to product is the sole responsibility of the Purchaser. Global's standard product warranty shall not apply to C.S.M.

VINYL AND FABRIC GRADING

All products are priced according to their standard vinyl and fabric grade. Lower grade vinyls and fabrics are available (unless otherwise specified) at same price as standard. The listing of prices for each model indicates a price for each of the upholstery grades. Prices are based on yardage in imperial measurements. Please refer to the Textiles & Finishes section of the Global website for the most up to date listing.

UPHOLSTERY COVERINGS

Slight variations in color may occur between dye lots. Although Global attempts to minimize these variances, they do occur and must be accepted as normal and will not be considered defects.

YARDAGE

Required yardage (ydg) is based on unmatched materials with widths of 54" for seating. Yardage calculations are based on imperial measurements.

WEIGHT

This figure indicates the weight of one part and its packaging, regardless of the number of parts shipped in a single carton. In order to estimate the approximate shipping weight for an order, you have to multiply the indicated weight by the number of parts per carton. (e.g. if a part weight is 10 lbs. and is shipped 4 per carton, shipment weight should be calculated as: 4 x 10 = 40 lbs.)

CUBIC MEASURE

The stated cubage is an approximate cubic foot measure to calculate freight costs. The figure shown is the volume for the total shipment of a part (e.g. if a part is sent in 2 cartons the volume indicated reflects the cubage of both cartons together) and is subject to change without notice. It is most economical to purchase the specified number per carton.

DELAYS

Global's shipping confirmation will state a shipping date which is Global's best estimate at the time the order is acknowledged. However, Global shall not incur any obligation or liability to Purchaser for failure to ship by specified date unless Global has agreed to an unequivocal shipping date in a separately signed written document executed by its authorized personnel at its head office. In addition, Global shall not be liable for any loss or damage resulting from any delay or failure in shipment or other failure to perform all or any part of the agreement between the parties with respect to the goods shown on the face of the order acknowledgement where such delay, failure, loss or damage is the proximate result of any act of any governmental authority or political subdivision thereof, revolution, riot, civil disorder or disturbance, delay or default in transportation, electrical power failure, strike disputes among or between labor unions or other labor disputes, delay or inability in obtaining materials and facilities, fire, flood, act of God or any cause not within the reasonable control of Global, whether of the class of causes enumerated or otherwise.

SUSPENSION

In the event that the Purchaser defaults in the payment of any sum due to Global, or in the event the Purchaser's financial condition becomes unsatisfactory to Global, Global shall have the right to defer or discontinue shipment of any goods until such time as the default is cured or the Purchaser provides assurance of payment to Global.

F.O.B.

F.O.B. point is Global's Factory, Downsview, Ontario, Canada, or any Global Regional Distribution Center.

SERVICE

Service requests are normally the responsibility of Global's authorized dealers. Where this cannot be accomplished on a local level, service problems should be referred to Global's Customer Service Department at the nearest distribution center.

RETURNS

No returns of goods will be accepted without written consent and shipping instruction of Global. A minimum re-stocking charge of 35% is made on all authorized returns for credit or refund, provided goods are received by Global in the condition in which they left the factory. This may increase depending on the type of product. Global's Return Goods Authorization (R.G.A.) numbers must appear prominently on all authorized returns. Global will not be responsible for freight costs. No credit will be given if goods cannot be reused as new. Special order items and C.O.M. products are in no event subject to return. All returns must be approved and authorized in writing by Global Customer Care. Global reserves the right to refuse delivery of any unauthorized returns.

STORAGE CHARGE

Global reserves the right to assess storage charges if a customer does not accept shipment of an order within a week of shipment or requested ship date.

CLAIMS

All goods are sold F.O.B. plant or Global Distribution Center. Global is not responsible for damage which occurs in transit (or in storage). The carrier signs for all goods received in apparently good order. It is the Purchaser's responsibility to examine goods upon receipt and to file any claims with the carrier for losses or damage to the product occurring during transit, including concealed damage.

Any claims made against Global for apparent defects, errors or shortages must be made by the Purchaser, in writing, within 15 working days after any delivery. Failure by the Purchaser to make any claim against Global within 15 days shall constitute acceptance of the goods and a waiver of any apparent defects, errors or shortages.

COMBINED SHIPMENTS

Global will make every effort to combine shipments and orders on written request. However, Global cannot be held responsible where such request is not complied with.

UPS SHIPMENTS

Seating products marked with a UPS symbol next to the CARTON COUNT are packaged for UPS-able shipments.

OFFER OF SALE

Possession of this price list or any other literature shall not imply Global's willingness to sell to the holder and shall not be construed as a direct offer of sale.

If a conflict arises between: (i) prices found in software support packages furnished to the customer by Global or by any other source on behalf of Global; and (ii) Global's current printed price lists, then the printed price list shall prevail.

TESTING QUALIFICATIONS

Many Global products pass or exceed the most stringent testing procedures. Where tests are significant, they are marked as C.G.S.B. (Canadian General Standards Board) qualified and as passing ANSI/BIFMA (American National Standards Institute/Business Institutional Furniture Manufacturer's Association).

DISCLAIMER

All dimensions are in inches. Prices shown are current manufacturer's suggested list prices at the time of printing. All applicable taxes are extra. Descriptions, specifications and prices are subject to change without notice. Errors and omissions are subject to correction.
