- Offers options that allow the chair to meet rigorous infection prevention control requirements.
- Compound curved back provides comfort and support in multiple seating positions
- Rugged steel frame made from round welded steel tubing 7/8" dia.

PRIMACARE SLEEPERS

model GC3610SW

model GC3610SW pulled out

STANDARD FEATURES

- Primacare sleepers are ideal for space-constrained lounges and patient rooms providing sleeping space for one to two people. With zero wall clearance required, the sleeper is easy for one person to open and close. It is part of the Primacare healthcare collection for coordination of design across environments.
- Single unit sleep surface available in 24.5"W x 77"L (GC3610SW) and 30"W x 77"L (GC3610XW). Double unit (GC3610D) has two independently operated 24.5"W x 77"L sleep surfaces, each with standard underseat storage.
- Sleeper extends by pulling castered storage forward.
- Models are standard with four Black locking 3" dual wheel hard surface casters (C83R) to support the arm frame, and with non-locking casters to support the pull-out storage compartment.
- Tapered wood legs (**WOD**) are optional; available in all Global wood finishes, see upcharge. Non-locking casters remain on the pull out.
- Models are standard with Urethane, easy grip forward extending armcaps.
- Wood (**WOD**) and solid surface (**CO**) armcaps are available, see upcharges.
- Armcaps are securely fastened with metal-to-metal connectors and are field replaceable.
- Seat and back offer a 3.5" thick dual density ultra cell foam cushion for enhanced long term comfort.
- Seat cushion has a seamless waterfall front edge.
- Two concealed fabric pull tabs are located at the top of the back cushions. These allow the extended sleeping platform to be easily returned to a seated position.
- A Black, phenolic tablet arm with spill collector groove is available. Specify right (**RT**), left (**LT**) or both sides (**TB**) of the chair. See upcharges. Each tablet adds 4" to the width of the chair. Tablet requires 5.5" of clearance to operate. The tablet pivots for use and stores by lifting gently and rotating down to the side of the chair.
- Models may be specified with contrasting fabrics. Specify seat and back cushions separate from arms and front foot rail. For pricing, start with the base price and add both back/seat graded textile upcharge and the arms/front rail graded textile upcharge. *Note: the blended textile matrix is not applicable to this series when specified as noted above.*
- Carded healthcare textiles with a minimum of 100,000 double rubs must be specified to meet Global's 24/7 warranty coverage. For healthcare textiles, visit the website at [globalfurnituregroup.com](http://globalfurnituregroup.com).
- When specified with approved, non-healthcare Global carded textiles, Global's limited lifetime warranty for 8hr, 5 days/week use applies.
- Warranted to support up to 350 lbs. active weight capacity per seat.
- Shipped fully assembled.

INFECTION CONTROL AND BED BUG RESISTANCE OPTIONS

- Several optional features are available for improved cleanability, to control moisture, and to reduce the risk of bed bugs.
- For woven textiles without a moisture resistant coating or backing, a moisture barrier (**MB**) is available to minimize moisture penetrating to the seat cushion. Moisture barrier is not recommended with water resistant textiles and may not be used in conjunction with sealed seams.
- For approved coated textiles (i.e. vinyl, silicone), sealed seams are available. Specify (**SWZ**) for sealed seams and waterproof zipper to prevent moisture or insects from penetrating seat and back cushion, see upcharges. For sealed seams on arms specify (**S3**), see models for upcharges.
- Note: minor puckering is common with the addition of sealed seams due to material buildup at corners.
- Underside of seat is standard with a coated lining (**CL**). For added protection and bed bug resistance, a sealed staple strip on the underside of the arms is available. Specify sealed lining (**SU**), see upcharge.
