For heavy duty usage, two, three and four drawer laminate files are available with steel drawer interiors.

Tops are 1" thick and a top over side, edge panel design.

## BASIC WORKSTATION

Office Spaces planning begins with the credenza, the storage undercarriage, the worksurface, the required support channels and the leg column kit type. The examples below feature fixed height leg column kits and all surface types in a right handed configuration, but any can be specified with height adjustable leg column kits and/or the opposite handedness.

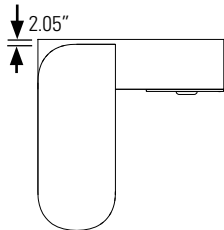

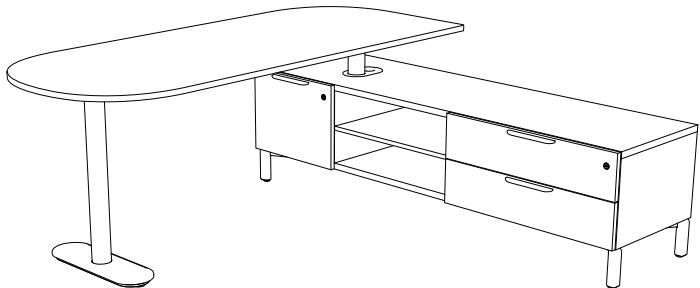

To support surfaces, specify the required leg column kit, the low storage with leg grommet and support channel bars for primary surfaces (single bar up to 66", two required for 72" and above) and a return support kit for return surfaces. Primary worksurfaces cannot rest directly on the low storage or as a freestanding table desk.

## L-DESK SURFACES

To specify an "L" shaped configuration with Office Spaces, a credenza with two leg grommet, a three column fixed or height adjustable kit, two support channels and a return support channel kit are needed. The examples below feature fixed height column kits, a basic rectangular primary worksurface with various return shapes available.

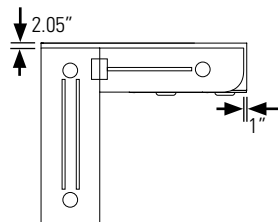

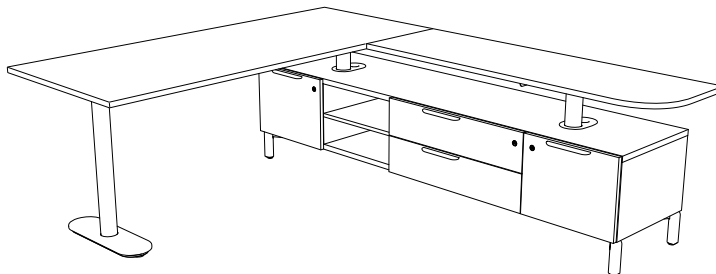

They can also be specified with height adjustable column kits and/or opposite handedness. The primary surface can be specified as any shape as shown on the previous page. To support surfaces, credenzas must be specified with two leg grommets. Surfaces cannot rest on the credenza.

## STORAGE

SKSLL Storage Legs for single units.

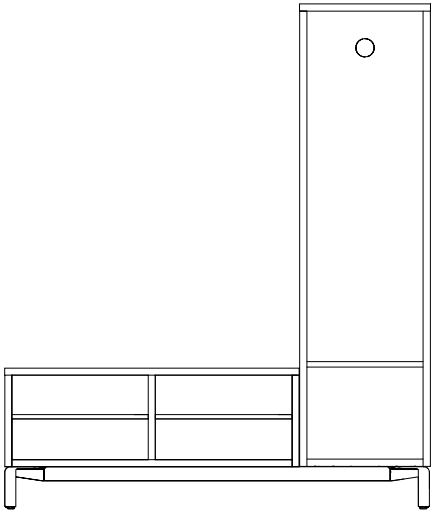

SKSLU20 Storage Undercarriage

\*Freestanding Storage 24 or 30\"w use SKSLL.

NOTE: High storage units of 24\"w or less must be ganged with a low unit or anchored to the wall.

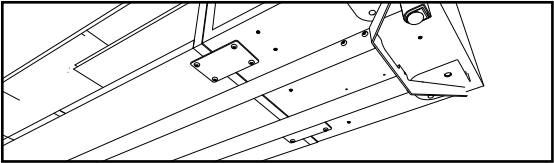

\*Use SKSLU20xx for Low storage 36\"w and greater and for all High Storage (18\"-48\"W). 18 & 24\" wide high storage not intended to be freestanding units; must be ganged to another unit OR anchored to a wall or other fixed element.

\*Combining low and high storage is possible over a single undercarriage. No more than one low storage unit and one high storage can be combined on a single undercarriage.

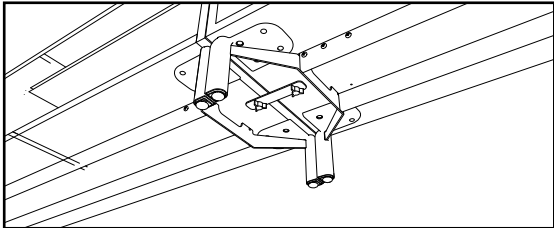

18\" and 24\" wide high storage recommended for use in conjunction with low storage 36\" wide or greater.

NOTE: All storage units have a recessed back of 1.29\"

### Flush Plate Detail

Flush plates (SKWSFP) are required when combining low and high storage over a single undercarriage.

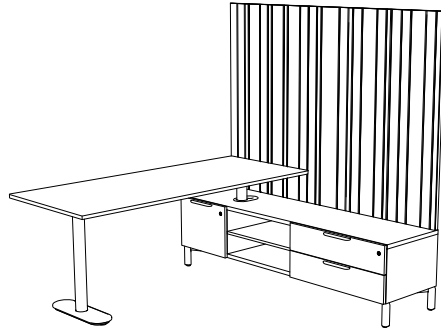

### Ganging Clip Detail

A base ganging clip (SKSAGC) is recommended when positioning two separate undercarriage pieces side by side. The half-pill shaped legs align to form an oval column to emulate the curves seen through the Spaces Collection.

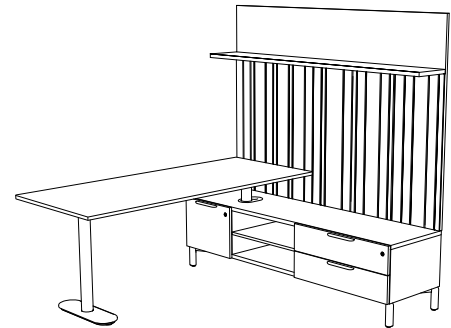

**BACKBOARDS + OVERHEADS**

Backboards add a decorative finished element to the space and with optional shelving or when used with overheads add personal storage options; they are wall mounted. Backboards include rails for mounting; hardware to fix to the wall is not included.

Backboards are intended to be mounted with bottom flush to the top of 20" low storage and aligned to the top of high storage. Backboards are available in laminate (**LP**), dry erase whiteboard (**DE**), PET felt (**PT**), and patterned PET felt (**VE**).
